## DUTIES OF ASSESSORS EXPLAINED

**State Tax Commission Instructs Them to Forget All Politics**

**IN THE ADMINISTRATION OF THEIR ASSESSING WORK**

**AND RETAIN ALL DEPUTIES**

Unless They Are Known Or Proven Incompetent—Rival Factions Make Selection In Larger Counties Difficult for Governor—Work Must Start Monday.

(ASSOCIATED PRESS TELEGRAM)

Columbus, April 1.—Newly appointed tax assessors from sixty counties who met here today for a conference with the state tax commission were told by Commissioner James Boyle to forget politics in administration of their assessing work. Particularly he urged to retain all deputy assessors in wards and townships, unless these are incompetent. They were appointed under the last Democratic administration and are protected by civil service regulations. They may be dismissed, however, only by giving written reasons.

Where vacancies exist in the staff of deputy assessors in any county, Commissioner Boyle said, appointments should be made from eligible civil service lists, if these exist. Otherwise they may be made without regard to civil service.

Assessors from the larger counties will meet here tomorrow. Tax assessment work must be started next Monday.

Appointment of assessors for Franklin and Lucas county gave Governor Willis considerable difficulty today, because of rival factions in the local political organizations. Governor Willis stepped into the breach between the Franklin county factions this afternoon and named Thomas D. Binckley of Columbus as the Republican member for Franklin county. The appointment, it was explained, was a personal one. Binckley had served in a session of the legislature, when Governor Willis was also a member and the two have long been close friends.

Binckley was connected with the office of Secretary of the state during the administration of Carmi A. Thompson. In announcing Binckley's appointment, Governor Willis issued a statement, indicating that in the future he will not recognize factional quarrels within a party organization, but will make appointments outside of the usual recommendations in case of internal disruption. The rank and file in the Republican party are not interested in disputes between leaders, he declared. The statement in part follows:

"Owing to the apparent division of leading Republicans of this county over patronage matters and the disposition displayed to engage in unnecessary internal party warfare, I have determined that so long as those elements of the party locally (Continued on Page 14, Col. 3.)

## ADDITIONAL EVIDENCE IS GATHERING

**Swoboda's Pro-German Sentiments Said to Have Been Almost a Mania**

**REASON FOR ATTEMPTING TO FIRE 'LA TOURNAINE'**

**DETECTIVES ON THE CASE**

Learned That Man Under Arrest Had Left Five Large Trunks With Letters of a Compromising Character and Photograph of Himself in German Soldier's Uniform.

(ASSOCIATED PRESS TELEGRAM)

Paris, April 1.—Additional evidence has been found, the police assert, to prove the pro-German sympathies of Raymond Swoboda, charged with being responsible for the fire which threatened the destruction of the steamer La Touraine.

Secret service operatives learned yesterday that Swoboda left five large trunks in an office in the Avenue de l'Opera, the use of which he had obtained through an introduction by the broker, Morrison. The trunks were seized and sent to Havre.

The villa which Swoboda occupied at Viroflay, near Versailles, also was searched and a number of papers seized. These documents included the police assert, letters of a highly compromising character, together with photographs showing Swoboda in a German uniform with two other officers.

M. Raguet, Swoboda's business associate, declared in an interview last night that he believed Swoboda was a Canadian as he had excellent references from Quebec, where he said his family resided. Swoboda told Raguet he had been brought up in Germany and made no attempt to hide his sympathy for that nation, according to the interview.

"Swoboda's Germanophile sentiments became so pronounced about the middle of July," said M. Raguet, "that I decided to break off my relations with him. After July 15, Swoboda spoke of war being imminent between France and Germany. He said he had exceptional sources of information in Germany. He wrote me about this time that it was a shame to deal on the bourse since there never would be a monthly settlement."

The Figaro prints the following statement in reference to Swoboda's attempt to attach himself to that paper:

"During the first days of the war Swoboda came to the Figaro and offered himself as a war correspondent, in which position, he declared, his American citizenship would be advantageous. He said he could go everywhere and supply information nobody else could get. One of our editors, Franz Raichel, who saw him, gained so poor an impression of the man, that for the moment he seriously considered denouncing him as a spy and refrained from so doing only because he was not absolutely certain."

## Japanese Nurses Caring for Wounded French Soldiers.

Here is where the Occident has come to the Orient. These Japanese nurses and surgeons, shown in this photograph are in a French hospital where they have given wonderful help. They are the same surgeons and nurses who passed through the United States Jan. 13, on their way to Europe. Seventeen pretty nurses with several surgeons in charge of Dr. J. Suzuki, came from the Orient by way of California and were received in many cities on their way to the battlefields. Now they are hard at work.

## Bomb-Dropping Attack On Matamoros Is Now Forecasted by Dayton Aviator; 200 Are Being Made In Brownsville

(ASSOCIATED PRESS TELEGRAM)

Brownsville, Texas, April 1.—The probability of a bomb dropping attack by four aeroplanes on Matamoros, was forecast today by P. M. Rinehart, of Dayton Ohio, an American who flew a Villa biplane last night to Las Rucias, four miles from Matamoros, and headquarters of Villa forces now surrounding Matamoros.

Rinehart flew from Reynosa, about 65 miles west of Matamoros. He said he was informed that three other aeroplanes were due to leave Monterey, possibly today for Matamoros. Under favorable conditions the air trip from Monterey could be made in three or four hours.

Rinehart said he had not seen cannon. The Villa authorities claim they are coming up to shell the Matamoros entrenchment but the official observer who rode with him said several cars loaded with artillery were stopped some distance from Matamoros by torn up tracks.

There was considerable rifle firing between Villa scouting parties and

the Carranza trenches at Matamoros early today, but it stopped before daylight.

Two hundred bombs are being manufactured in Brownsville for use of a Carranza aviator. It is planned to use them in defense of Matamoros, provided an aeroplane arrives in time. The Carranza officials here claimed this machine was due to arrive from New York Monday. Yesterday they sent telegrams to try to hurry it through.

From the Villa camps outside Matamoros there have been several reports of the arrival of an aeroplane for use against Matamoros. None, however, has been seen in action.

The arrival of field cannon for a Villa bombardment of Matamoros an event which has caused some worry as to Brownsville's safety, and the time when the Villa troops will renew their assault on Matamoros are surrounded with considerable secrecy. Although the Villa artillery was reported only about 75 miles away from Matamoros at the beginning of the siege, the Villa forces

appear to be in no hurry to get the field pieces to Matamoros.

It is believed here the fifteen Carranza army officers who reached New Orleans last night enroute to Vera Cruz are part of the forces which left Matamoros, Mexico about two weeks ago. Their departure has not been fully explained although it was stated at the time that they were not needed at Matamoros.

## VILLA AND ZAPATA TAKE U. S. PROPOSAL TO NEUTRALIZE TRAINS.

(ASSOCIATED PRESS TELEGRAM)

Washington, April 1.—The Villa Zapata forces have agreed to the proposal of the United States for neutralization of passenger trains between Mexico City and Vera Cruz. Word is still waited from General Carranza who received representations from the American government on the subject nearly a month ago.

Even with the consent of Carranza, however, official representatives indicate that travels will be some (Continued on Page 14, Col. 1.)

## EITEL'S CAPTAIN HAS NO IDEA OF LEAVING REFUGE

(ASSOCIATED PRESS TELEGRAM)

Newport News, Va., April 1.—That commander Thierichens has no intention of leaving his neutral refuge for some days at least, despite the fact that hurried coaling of the Prinz Eitel Friderich indicated a purpose to go, was authoritatively learned here today and it also became known that he is negotiating for supplies. It is probable that quantities sufficient for a 15 day's voyage will be taken aboard next Sunday.

Supplies for a trip to the nearest German port have been asked for by the commander and under the neutrality laws, will be permitted to go aboard.

The chief reason for sending American military forces to guard the German cruiser is because anonymous threats to blow up the ship have been received within the last few days. Immediately after the Eitel reached port anonymous threats began to pour in upon Commander Thierichens. At first no attention

## GERMAN ATTACK ON OSSOWETZ IS NOW ABANDONED

(ASSOCIATED PRESS TELEGRAM)

Petrograd, via London, April 1.—The German bombardment of the Russian positions at Ossowetz, in Russian Poland, has been definitely abandoned, according to semi-official dispatches published here today.

For some days the German artillery fire on Ossowetz has been weakened, and on March 30, it was discontinued. The cessation of these operations is regarded in Petrograd as an indication of the end of the German offensive movement in the North. The argument is advanced that in abandoning the siege of Ossowetz, the German will appear to have given up the hope of establishing connections between their forces to the west of the Niemen and those north of the Narva. Without possession of Ossowetz to protect their flanks, the advance of either one of these German armies, is regarded here as practically impossible.

The fortifications of Ossowetz are reported to have suffered little from the protracted German bombardment.

## SLEEP WALKER'S FATAL FALL.

(ASSOCIATED PRESS TELEGRAM)

Cincinnati, April 1.—While walking in his sleep at his home here this morning, Charles H. Van Den-shtein, 66, an engineer, fell down a flight of stairs to his death. His neck was broken.

## Fear General Massacre at Urumiah; Horrible Cruelties Practiced Upon The Victims of Uprising Against Christians

(ASSOCIATED PRESS TELEGRAM)

Tabriz, Persia, Wednesday, March 31, via Petrograd and London, April 1.—Proceeding the reconquest by the Russians of Salmae Plains, in Azerbaijan province, northwest of Urumiah, hundreds of native Christians were rounded up by the Turks in the village of Haftedwan and massacred. Many of these were searched out from the homes of friendly Mohammedans who tried to hide them.

The Russians on entering the village found 720 bodies, naked and mutilated. The recovery of bodies from wells, pools and ditches and their burial kept 100 men busy for three days. The wailing of women intensified the horror of the scene. Surviving widows who were able to identify the bodies of their husbands insisted upon digging graves and burying the bodies. Some of the victims had been shot. In other cases they were bound to ladders and their heads, protruding through were hacked off. Eyes were

gouged out and their limbs chopped off. A general massacre of the 10,000 or 15,000 Christians remaining in Urumiah is expected, unless it should be averted by orders from Constantinople. Verbal messages from Urumiah confirm earlier reports that more than 500 persons already have been killed in that neighborhood and that more than 200 have died of disease. These messages also confirm the reports of the maltreatment of the Rev. Dr. F. T. Allen, an American missionary at Urumiah.

## WANDERING NEEDLE SHOWS UP AFTER FOURTEEN YEARS.

The aimless wandering of a needle in the body of Miss Charlotte Simpson, 45 Linden avenue, was ended Monday when Dr. W. E. Shrontz removed the bit of steel from Miss Simpson's chest after the young woman had experienced some pain for several days. The recovery of the needle recalled an incident fourteen years ago, when Miss Simpson swallowed a needle. During the fourteen years that the needle was carried in her body, Miss Simpson felt no inconvenience until about two weeks ago when sharp pains in her side annoyed her. Later the pain shifted to her chest and Dr. Shrontz was called. He located and removed the needle and the pain was relieved. A short time ago a needle was removed from the hand of Mr. L. A. Culbertson, manager of Republican News of Mt. Vernon. Mr. Culbertson has no recollection of the needle entering his body.

## FIVE KILLED IN EXPLOSION OF POWDER

(ASSOCIATED PRESS TELEGRAM)

Alton, Ill., April 1.—Five men were killed at the plant of the Equitable Powder company, five miles from here today when an explosion wrecked the press mill. About 5000 pounds of black powder was in the building and the shock of the explosion was felt here. J. A. Colburn, superintendent of the plant was the only man in the building when the explosion occurred. He was killed. The other victims, workmen, were nearby and hurled in all directions.

The plant of the Equitable adjoins that of a large cartridge company and both concerns have large ammunition orders for the European belligerents.

## CHINESE MADE FURTHER CONCESSIONS TO JAPAN AND HAVED NEGOTIATIONS.

(ASSOCIATED PRESS TELEGRAM)

Shrewd Statesmen of Tokio Seem to Have the Better of Diplomatic Argument.

Peking, China, April 1.—The negotiations between China and Japan looking to the acceptance by the Republic of the demands presented by Tokio shortly after the Japanese occupation of Kiao Chow, were again saved from disaster today by the fact that the Chinese statesmen made further concessions to Japan. The Chinese offered to waive entirely the question of Chinese jurisdiction over Japanese immigrants to South Manchuria, except in cases involving land ownership. M. Hoki, the Japanese minister, undertook to submit this proposal to Tokio.

The question of the jurisdiction of the Haneying Mining company was not opened today. Articles II, III, IV and V of group five, were presented without any offer of modification by Japan. (These articles provide for the ownership of land by Japanese in the interior of China, for the employment of Japanese policemen on certain designated Chinese police forces, that China purchase munitions of war from Japan, and that China grant Japan certain railroad concessions in the eastern portion of the central part of the republic.)

The Japanese advanced the argument that they wished to unify the system of arms now used throughout China, which today is made up of a medley of innumerable patterns. They said also that China would benefit by an increased number of schools and hospitals (as provided for in Article II), and that they were only asking privileges which other nations now enjoy.

## RUSSIANS AND TURKS RESUME HOSTILITIES ON PERSIAN TERRITORY.

(ASSOCIATED PRESS TELEGRAM)

Tabriz, Persia, Wednesday, March 31.—Via Petrograd, April 1.—and London.—Hostilities between Russian and Turkish forces in Persia have been resumed. On March 25 the Russians defeated the Turks in a sanguinary battle at Atkatur, north of Dilmán, in Northwestern Persia.

The Turks lost 12,000 in killed wounded and prisoners, as well as many guns.

## CIGARETTES FOR SOLDIERS.

(ASSOCIATED PRESS TELEGRAM)

Berlin, March 16.—One of the most welcome gifts which the army of General von Hindenberg has received during the long campaign in the east is a big shipment of cigarettes from the Turkish First Army corps. The soldiers and officers of the Turkish corps contributed the money for the "smokes" and sent them as an appreciation of the German victory in the Masurian Lakes district.

## WAR IS NOW ON ALCOHOL IN ENGLAND

**And Has Taken Precedence In Interest Over Battle-field News**

**KING AND CABINET SOUND PUBLIC SENTIMENT.**

**ABSOLUTE PROHIBITION**

May Not Be Adopted In Name, But Measures Are Considered That Will Be Just As Drastic In Effect—Bismarck's Birthday Recalls His Break With Present Emperor.

(ASSOCIATED PRESS TELEGRAM)

London, April 1.—The war on alcohol, an outcome of the labor situation in Great Britain, has definitely taken precedence over the much talked of "spring advance" of the allies in the west, the reason being that the problem of munitions has become more pressing than that of recruiting.

The pronouncements of cabinet leaders and the letter of King George on the question of temperance are intended to pave the way and sound public sentiment, preparatory to either shutting off absolutely the sale of drink throughout the country, except on physicians' prescriptions, or the adoption of some measure which, while perhaps not called absolute prohibition, will have almost as drastic an effect.

War Secretary Kitchener has announced that no alcoholic beverages shall be served in his household for the duration of the war.

The battlefields in the East and the West afford little news today, and although the allies are reported as having resumed operations in Dardanelles, nothing official is forthcoming.

Today being the centenary of the birth of Bismarck, the London newspapers report editorially the career of this German statesman, ending in the break with the present emperor and speculating on what might have been the outcome of the war to date had Bismarck been at the helm.

Austria would seem to be strengthening her forces in Bukovina, with the idea of thwarting a formidable Russian advance in the Carpathians and this, according to the British press explains the "Austrian intrusion" into Russia over the Dniester river at a point near Czernowitz.

## CHAMPION DIVER WILL ASSIST IN RAISING THE F-4

(ASSOCIATED PRESS TELEGRAM)

New York, April 1.—The world's champion deep-sea diver, E. J. Bessie, and three other divers will leave the Brooklyn navy yard tonight for San Francisco, whence they will proceed to Honolulu with the apparatus to aid in the work of raising the submarine F-4.

Draschinski holds a record of having gone 275 feet beneath the surface on Nov. 3, last.

## NAVY YARD EXPERT DIVERS TO HONOLULU

(ASSOCIATED PRESS TELEGRAM)

Washington, April 1.—Expert divers from the New York navy yard to assist in raising the submarine F-4, in Honolulu harbor are expected to leave with their equipment today for San Francisco, where the cruiser Maryland will be waiting to take them.

Meanwhile Rear Admiral Moore, commandant of the naval station at Honolulu will continue his efforts to raise the submerged craft.

## DEPARTMENT BEGINS INVESTIGATION OF SWOBODA'S PASSPORT.

(ASSOCIATED PRESS TELEGRAM)

Washington, April 1.—Agents of the bureau of investigation of the department of justice began an inquiry today into the issue of an American passport to Raymond Swoboda, under arrest in Paris charged with starting the fire on La Touraine, the French liner.

The investigation is to determine whether the issue of the passport was entirely regular. The passport does not give Swoboda's occupation, merely saying he was to be abroad "one year on business."

Grand Jury Witnesses.

Witnesses have been subpoenaed before the grand jury for each day of next week. The jury convenes Monday morning.

## French Steamer Torpedoed; Only Two of the Crew Saved; Submarine Gave No Warning

(ASSOCIATED PRESS TELEGRAM)

London, April 1.—The French steamer Emma, bound to Bordeaux, was torpedoed Wednesday in the British channel, off Beachy Head, by a German submarine. Nineteen members of her crew were drowned, only two being saved.

The periscope of the submarine had hardly been sighted from the Emma when the torpedo from the undersea boat struck the Emma in the engine. No warning of any kind was given. The ship foundered in three minutes from the time she was struck.

A British destroyer subsequently picked up two men who had been in the water for a couple of hours, and at the same time recovered two bodies. The Emma had a crew of 21 men. All the others lost their lives.

## STEAMER CAPTURED; SUSPECTED OF GIVING OIL TO SUBMARINES.

(ASSOCIATED PRESS TELEGRAM)

London, April 1.—A dispatch to the Exchange Telegraph company from New Haven, a port on the English Channel, in Sussex, says a large Dutch cargo boat, the Lodewijk Van Nassau, has been brought into New Haven by two British torpedo boats

under the suspicion that she has been supplying German submarines with fuel oil.

The torpedo boats gave chase to the Lodewijk Van Nassau and captured her near Brighton.

It is said the members of her crew appeared to be Germans. The name of the vessel is painted on each side in huge letters. She has a cargo of oil on and this is now being examined. When hailed by the British torpedo boats the Dutch steamer refused to stop, but she eventually was brought to a halt.

## CONVICT BETRAYED BY A COMPANION FOR A \$25 REWARD

(ASSOCIATED PRESS TELEGRAM)

Lexington, April 1.—Earl Cotton, who escaped from the North Carolina prison farm about four months ago, after serving six years of a sentence of thirty years for murder, passed through here last night in custody of a deputy warden enroute to Raleigh. Cotton was captured at Whiteburg, Ky. He declared a companion betrayed him for a reward of \$25. Cotton was convicted of complicity in causing the death of Dr. E. W. Smith in Raleigh.

## Granville

(Special to The Advocate)

Granville, April 1.—Seldom has a more enthusiastic recognition of local talent been witnessed in Granville than was that accorded the Denison Glee club in its first home appearance, last night, March 31, in the Opera House. It was a fine audience, and a genuinely enjoyable program—a real "glee" as such a performance should be, and each number presented met with instant and hearty response from the audience. Indeed each number was insistently encored, and the boys good-naturedly responded with their best and happiest. The club had been well drilled by Mr. L. B. Cox, who showed his own musical quality by his solo numbers with the club accompaniment. The string quartette, composed of D. E. Richardson, H. C. Nellis, K. L. Ullman and H. L. Kier, literally brought down the house and was forced to appear again and again. Mr. Nellis responded to the last call with an artistic rendering of a mandolin solo. Mr. Gerald Athey, baritone, and Mr. Russell Williams, tenor, greatly pleased the audience in their respective solos.

The original skit, entitled "Aunt's Visit," kept closely to the line of college activities, not omitting the "strumming on strings," the "tussing," the athletics, etc., which fill the college boys' hours out of the class

room. As leader of the 1915 club, Mr. Cox has achieved a notable success; as manager, Mr. Kenneth Ullman has already proved his ability, as the club has a full schedule and will start tomorrow on a tour of northern Ohio cities.

The piano work, Chopin's "Polonaise Militaire," by Mr. Eschman, elicited a storm of applause to which he graciously responded by playing a selection from Debussy in faultless style. The program was as follows:

PART ONE.

The Kavanagh Club. Bullard.  
Rockin' Time. Club. Knox.  
Cato's Advice. Club. Huhn.

String Quartette. Selected.  
Baritone Solo. "Because." D'Hardelot.  
Mr. Athey.

PART TWO.

A College Scene—"Aunt's Visit."  
Bob—Quarterback Brothers. Shorney.  
Bill—The Fuser. Richardson.  
Gladys Marie Featherstone—Their Aunt. Wilson.

Prot James Whittle—Latin Prof. Malcoln.  
Percy. Chandler.

College Boys and Girls (?) Rest of the Club.

Scene 1. The Night Before the Game—Bob and Bill's Room.

Scene 2. The Day of the Game. Same as Scene 1.

PART THREE.

Piano solo—"Polonaise Militaire." Chopin.  
Mr. Eschman.

Tenor Solo—Irish Love Song. Lang.  
Mr. Williams.

Hunting Song. Bullard.  
Tipperary Mary. Mr. Cox and Quartette.

Toreador. Hohn. Trotter.  
Club.

To Denison.

PERSONELLE OF THE CLUB.

First Tenors: S. W. Collier, W. F. Meredith, H. F. Holton, H. D. Chandler.

Second Tenors: J. H. Williams, D. E. Richardson, G. M. Roudebusch, Baritone: N. C. Rupp, G. B. Athey, R. E. Russell, H. R. Malcolm, K. L. Ullman, Basses:

H. L. Kier, P. W. Curtis, J. L. Bjelke, H. C. Nellis, C. L. Thibet, Male Quartette: L. B. Cox, first tenor; R. H. Williams, second tenor; K. L. Ullman, baritone; P. W. Curtis, bass; String Quartette: D. E. Richardson, mandolin; H. C. Nellis, mandolin; K. L. Ullman, mandolin; H. L. Kier, guitar.

Leader, Leonard B. Cox; manager, Kenneth L. Ullman; pianist, Karl H. Eschman; assistant manager, D. E. Richardson; secretary, P. W. Curtis.

Quite the most notable social function in many seasons was the reception last night at the home of Mr. and Mrs. Howard Darrow in South, Main street, following the Glee Club concert, at which the Granville Women's Glee club entertained the twenty-two members of the Glee club, and a like number of Shepherdson College girls. Husbands of the Glee club members also were guests as were house guests of various members. The fine old home, so well adapted for entertaining, was artistically decorated throughout with the fragrant blossoms of spring, the dining room especially beautiful with its candle light and its masses of pale yellow and deep orange tulips which centered the table.

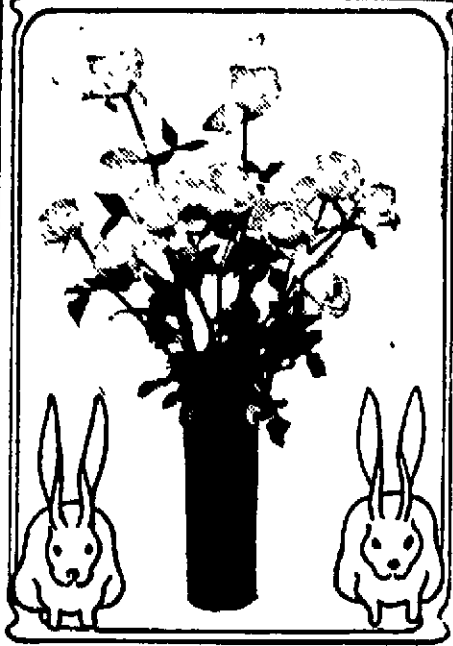

In the receiving line were the manager and leader of the Glee club, Messrs. Kenneth Ullman and Leonard Cox, the host and hostess, Mr. and Mrs. Darrow, and the officers of the Music club, Mrs. Burton Case, Mrs. C. D. Coons, Mrs. R. S. Colwell. The club's social committee, Mrs. J. S. Jones, Mrs. J. D. Thompson, Mrs. Theodore Johnson were assistant hostesses; Mrs. C. W. Chamberlain, and Mrs. W. P. Ullman poured in the dining room, where refreshments were passed by Miss Josephine Darrow, Margaret Colwell, Florence and Frances Carney, and punch was served by Mrs. Jacob Rohrer and Mrs. George Strong. Not in many years has there been so enjoyable a comingling in a social way of the young and their elders as was afforded by last night's reception, honoring one of Denison's finest assets, the College Glee club.

Out of town guests were Judge and Mrs. Hunter, Mr. and Mrs. Frank Webb, the Misses Wright, Mr. Frederick Wright, Jr., Mr. A. H. Heisey, Newark, Miss Keeler of Cleveland, Miss Beam of Mt. Vernon.

Mr. Douglas Wilson Johnson, Associate Professor of Physiology at Columbia University gave his famous illustrated lecture in the Auditorium morning at 11 o'clock, on "The Influence of Topography on the Western War Front," which was enjoyed by an appreciative audience of nearly a thousand people. Maps of the countries involved in the present world struggle, were shown, with diagrams and exquisitely colored views illustrating the difficulties of Nature's own making, which have operated against the Germans in their advance on Paris. Mr. Johnson, son speaks from the view point of the scientist, and his lecture ranks high as the conscientious conclusions of a thoughtful man after careful personal study of the "ground of contention." It was a privilege as well as a pleasure, to stop for an hour, even in the middle of a busy day, to listen to this talk on conditions abroad which occupy so large a part of the world's attention, just now. Prof. Johnson is a Denison Alumnus, who has achieved success along scholastic lines. A cousin of Prof. W. H. and T. S. Johnson of Denison, whose wife was well known in Granville as Miss Alice Adams. He is making a tour of the prominent colleges and universities of this country, going from here to Ann Arbor, Case, Johns Hopkins.

Mr. and Mrs. J. S. Jones entertained with a dinner of perfect appointments at "Bryn Dr" last evening preceding the Glee Club concert. At the beautifully decorated table, centered with a great bowl of spring blossoms, covers were laid for: President and Mrs. C. W. Chamberlain, Mr. and Mrs. Frank Webb, Judge and Mrs. Robbins Hunter, Misses Wright, Captain A. H. Heisey, Mr. Frederick Wright of Newark and Mr. (Continued on Page 13, Col. 5.)

## FOR EASTER DAY

### Easter.

Ring loud and clear your bells for Easter time.

Now quick, now slow;

From sea to sea catch up the happy chime;

Bring all the flowers that blow For wreath and crown an offering pure and sweet

Christ's rising morn to greet.

Ring long and deep your bells for suffering borne

With patient grace;

Bring purple pansies, colors that are worn

Best with a sorrowing face,

And weave with pine and cypress and young moss

The emblematic cross.

Ring soft and slow your bells a tender knell

And softly weep;

Bring amaranth and stainless asphodel In memory of that sleep

Which wrapped the world in three days' ashen gloom

While he was in the tomb.

Ring, ring your bells across the happy land

This Easter morn!

Christ sits in heaven at the Father's hand.

Bring blossoms to adorn

A conquered death, whose victim has arisen.

A grave which is no prison.

—Juliet Marsh Isham in New York Times.

### THE EMPTY TOMB.

Its Story and Significance Told in Easter Sermon.

It is Friday afternoon. With "It is finished" his head drops upon his breast, and the hopes of his disciples are shattered. Pilate is glad to find some balm for his uneasy conscience by granting the request of the rich friend, Joseph of Arimathea, for the body. Nicodemus, scholarly, timid and shrinking, comes into the light again, joining in the embalming, because he cannot forget the evening's talk with the great Teacher. The tomb is sealed. He is alone, save for his watching enemies. The world's hopes are dead. In him they had flamed high; now they are ashes. They who loved him cherish the past, but have no future. The long sorrowful Sabbath day at last is waning; the first day is dawning.

Through the mists of the morning, hands laden with the treasures of the heart, while silver light of star and golden gleam of sun mingle, the Marys sadly seek the tomb, hoping to perform the last service of loving devotion. They approach with timidity, fear, awe, wonder.

Lo, the stone is rolled back! One sits upon it clothed in light. He has hastened from heaven to anticipate their coming and to change their sorrow into song by the announcement, "He is not here; he is risen." The women hasten to tell his disciples. Hope, the last spark of which had gone out, is kindled again in human hearts. Forty day he lingers on the earth until the most skeptical cries, "My Lord and my God!" Every disciple becomes a herald of his resurrection. They seal their testimony with their blood.

Only the fact of Christ's resurrection can explain the revived hopes of his despondent followers. Only a personality that lives can rule the world as Christ rules it today. Every believer may share this Easter morning's resurrection hope as it sends the sunlight of heaven into every darkened heart and into every open grave, revealing anew, "He is not here; he is risen."

Every tomb is now empty. May you who stand, in fact or in imagination, by the grave of loved ones today catch the vision and hear the voice. "He is not here; he is risen."

Death is not a wall, but a door into life. As evening promises morning, so winter spring, as the seed flowers, so death promises life.—Rev. Dr. George W. Shelton, Pittsburgh.

### The Word Easter.

Easter to the French is known as Paques; to the Scotch, Pasch; the Danes, Paaske, and the Dutch, Paschen. St. Paul calls Christ "our Pasch."

The English name is derived from that of the old German or Saxon goddess of spring, Ostera or Eastre, whose festival occurred about the same time of the year as the celebration of Easter. When the early missionaries went to Britain they found the people worshipping this goddess, to whom the month of April, which they called Easturmonath, was dedicated. The missionaries substituted the Christian feast for the old heathen one, but they allowed the people to give it the name of their goddess, and so the word Easter came to be used.

Why speak of dead fute's hands? They speak for themselves.

## In Milady's Boudoir

BY GWEN SEARS.

### LAUGHING NATURE'S TONIC.

A hearty laugh is nature's tonic for the heart. Practice it then, with all your heart. Don't let a day go by without indulging in this wonderful form of relaxation.

Laughing is the cheapest medicine in the world, and the most beautifying. All the visits to the vanity parlors in the world will do you no good if you come away with a stern, cold face and set jaws.

A good laugh stimulates the circulation and stirs sluggish veins to activity. Its vibration seems to force

new life into the very springs of our beings.

If you were to stop and figure up the number of times you have indulged in a good laugh you would be surprised to find that they are very few. Practice it as a duty if you cannot laugh spontaneously at first.

Relax your face muscles, loosen up the corners of your heart, and burst forth in a peal of musical glee.

Laugh and the world laughs with you, weep and you weep alone, remember.

### SUMMIT STATION

Easter services at the Universalist church, Sunday at 10:30 a. m., subject, "The Ideal Christian; His Hope." At 7:30 a. m., "The Raiment of the Redeemed." All members and friends are invited.

Oliver Holcomb and Sara Amerino attended the Junior play, "The Freshman," at Pataskala Friday night.

Dora Hines and Edith Brown were entertained at dinner Friday evening by Mrs. Homer Woolard at Pataskala.

Edith Brown spent the week-end at the home of her parents in Newark.

Mr. and Mrs. Frank Palmer had for Sunday guests Mr. and Mrs. Robert Graham of Reynoldsburg. Mr. and Mrs. Grant McCray and family of Pickerington.

Mrs. William Vanatta and daughter Helen were Columbus shoppers Saturday.

Mr. and Mrs. Frank Palmer took supper with Mr. and Mrs. Robert Graham Monday.

Mrs. M. Moore and daughters entertained with a six o'clock dinner last Thursday evening. The guests were Mr. Allen E. Cox and Pearl Criss and Ella Cox, all of Columbus. Mrs. Criss entertained the guests with some choice instrumental music.

Mrs. Rebecca Roman of Newark returned home Saturday evening after spending the week with friends at this place.

Mrs. S. B. Besse and daughter Gloria, were Columbus shoppers, Friday.

Mr. Sylvester Jacques sustained his second stroke of paralysis Sunday night. No hope is entertained for his recovery on account of his advanced age.

Mrs. Noama Bell Looker Combs was born in Licking county, O., May 28, 1878, and died in Columbus, O., March 24, 1914, aged 36 years. She was the daughter of Mr. and Mrs. John Looker of Mink street. She leaves a husband and three sisters and four brothers and two children.

The funeral was held in Reynoldsburg Saturday afternoon at 2 o'clock. Rev. R. D. Morgan of Columbus officiating. Burial was made in the Reynoldsburg cemetery. She was married to Robert Combs July 20, 1912, and two sons were born to them. She was a member of the Pataskala M. E. church.

LETTER FROM SON AS FUNERAL WAS PREPARING.

(Associated Press Correspondence) Essen, March 16.—Just as a family in the town of Werdohl was about to begin a funeral service for the son, who had been reported as killed in a battle in France, the postman arrived with a letter from the boy, written in a hospital in Toulon. His sight and hearing had been partly destroyed by a bullet wound in the head but otherwise he was well. The son's estate had been paid to his parents as final and unequivocal proof of his death, whereupon they had made preparations for a service to mourn him.

FIRST FRENCH VESSEL THROUGH PANAMA CANAL.

(Associated Press Correspondence) Panama, March 27.—The first vessel flying the French flag to pass through the Panama Canal was the steamship Saint Andre which made the trip on March 16. She was bound from Tahiti to Glasgow with a cargo of various ores. She is a steel freight ship 398 feet long and was built in 1912 at St. Nazaire for the Pacific trade.

NO POULTRY EXPORTED.

(Associated Press Correspondence) London, March 16.—In order to conserve her supplies of food, Russia has prohibited the export of poultry, dead or alive. The Poultry World states that all available supplies of poultry in Russia are being collected and shipped to Finland for preservation in cold storage. In normal times, England imports monthly nearly a million dollars worth of Russian hens and chickens.

## Doctors Said He Had Dropsy

Some time ago I had an attack of grippe which finally settled in my kidneys and bladder. I doctored with the doctors and they claimed I had dropsy; I tried other remedies and got no relief from any of them. My condition was such that I was unable to work for about two months and the annoying symptoms caused me a great deal of trouble and pain. I was barely able to turn over in bed. Seeing one of your Almanacs, I decided to give Dr. Kilmer's Swamp-Root a trial and after taking several bottles was able to resume my work again. I cannot say too much in praise of your Swamp-Root as the results in my case were truly wonderful.

Yours very truly,

### Trying to Hold Italy With Austria In War

PRINCE VON BUELOW

One of the hardest tasks ever assigned a diplomat in Europe has been that given by the Kaiser to Prince von Buelow. His was the work of getting Italy to keep the compact of the Triple Alliance and join Austria and Germany in the war. Soon the demands of the Italian people for action grew so great that his task became that of keeping Italy from joining the allies. As the demands of the people for the return of the lost provinces, Trentino and Istria, have grown, he has had hard work to prevent Italy from declaring war against Austria. While he has not failed, despatches have it every day that Italy may enter the war at any moment.

JACK JOHNSON at RENO, 1910 and at HAVANA, 1915.

## WILLARD NOW CONFIDENT OF THE OUTCOME

JOHNSON ON THE OTHER HAND  
IS NOT AS CARE-FREE IN  
TRAINING QUARTERS.

Black Man Appears to Realize the  
Tremendous Physical Advan-  
tages of White Goliath.

ASSOCIATED PRESS TELEGRAM

Havana, April 1.—M. J. Hinkel of Cleveland was today named alternate referee for the Johnson-Willard fight, next Monday. He will referee in case Jack Welsh is for any reason unable to reach Havana in time. If Welsh does get here it will be Hinkel's duty to sit at the ringside ready to step in and relieve Welsh in case the latter should be knocked out by a stray punch or suffer from sun sickness.

This decision was reached at a meeting of the principals and promoters held late today. At the time Bob Vernon, of New York, was appointed official timekeeper of the club with Ben Harris, also of New York, as alternate. Sam Leonard, of Toronto, is the timekeeper for Johnson. The timekeeper for Willard will be named tomorrow.

The routine in both camps began early today. The pugilists were on the road at sunrise to avoid the heat. Their sprinks and walks are being cut down daily now.

Willard and his followers are so confident of the victory of the challenger that they have planned a triumphant entry into the United States for the "new champion," a few days after the battle. They expect to make a tour of the principal cities of Cuba on April 6 and 7. If Willard's condition permits, and then go to New York by way of Key West, stopping at various places enroute. Willard expects to be the principal figure at a great reception in Madison Square Garden. Later, he says, he will make a trip around the world. His plan is much like the one made by Jeffries previous to his defeat at Reno. He has no particular plans if he should lose.

Willard says that fighting is a business proposition with him and that he bears no enmity toward his opponent. He says he will enter the ring calm and determined to win because he needs the money and knows he can win it in the prize ring.

Johnson, too, says he has no hard feelings for his opponent and would like to be on friendly terms with all of them before and after his fights. He boxes because there is money in it and for the love of fighting. As the champion expressed it, a man looking for a fight can get it on the street, "and a licking too."

Johnson has interests in France and after his bout with Willard he expects to take his earnings, return to the continent and settle down there for good. If he wins over Willard he probably will visit South America for exhibition bouts before going to Europe, but if he loses, he will return to France at once. As a winner he will be able to make plenty of money by giving exhibitions time after time. He knows that the moving picture rights will be most valuable if Willard should win but says there is no chance of fraud on that account and it is the greatest desire of his life to retire as undefeated heavyweight champion pugilist of the world.

Willard and Johnson have met on two occasions since they came to Havana but they exchanged only a few words. Previously they had never met. Willard encountered Johnson unexpectedly last night. The champion was dressed, as usual, in a white flannel suit, white hat and white shoes, and was wearing a big diamond stud and rings. Willard was dressed modestly in a blue suit and Panama hat. He also was wearing a large diamond stud.

Johnson seemed studiously to avoid paying the slightest attention to his antagonist, talking loudly to his friends. Willard in the meantime carefully watched Johnson's every move.

Outwardly, Johnson is all confidence, but in the privacy of his training quarters he views the fight seriously, discussing it in a philosophical vein with his trainers and close friends. This is something new in Johnson and cause many of his followers to believe that he looks for

a hard match, and that he appreciates the enormous physical proportions and powers of endurance which Willard possesses.

Willard does not seem to be at all nervous over the approaching battle but he is under a severe strain nevertheless. The mere glamor of the championship apparently does not appeal to him as strongly as it has to Johnson. The young western cowboy, who is entirely practical, sees in it possibilities of wealth undreamed of.

Every mail brings scores of letters from the United States to Willard.

Many are from cranks who offer advice which causes much amusement. One of these volunteer advisers wrote:

"The way to beat Johnson is to step on his toes and duck. Do this at every chance and you will win sure."

Another writer advised Willard to bury his chin in Johnson's left shoulder where the pressure on a nerve would partly paralyze his opponent.

Another letter said that for \$500 the writer would send Willard a sure system of winning. Still another offered lengthy advice and then demanded as a reward "the gloves you beat him with."

Johnson also is receiving daily a great many letters of every description.

### Missionary Doctor Saves 3,000 Syrians

Despatches and letters from Urmiah, sixty-five miles southwest of Tabriz, in northwestern Persia, say that the American Presbyterian missionaries stationed there are in great danger, as Turkish regular troops and Kurds are persecuting and massacring Syrian Christians.

An act of heroism by Harry P. Packard, doctor of the missionary station at Urmiah of the board of foreign missions of the Presbyterian church, saved the lives of 2,000 Syrians at Gogtepa, where they had made a last stand before their persecutors. Their ammunition was gone after a three days' fight and a massacre was imminent, when Dr. Packard, with an American flag in his hand, advanced between the lines. The Turks and Kurds thereupon withdrew, and all of the Syrians escaped, except 200 who had been burned in a church.

## MOTHER OF BLACK HAND WOMAN SHOT

MRS. A. H. ALBYN CALLED TO  
DETROIT BY CRITICAL CON-  
DITION OF RELATIVE

Divorced Husband Returns and  
Shoots Former Wife and Two  
Children—Held by Police.

In response to a telegram from Detroit, telling her of the critical condition of her mother, Mrs. Frank Deinhart, Mrs. H. A. Albyn of Black Hand, accompanied by her husband, left Wednesday afternoon for Detroit. Mrs. Deinhart was shot three times by her husband from whom she was divorced recently. Deinhart also shot and wounded two of his daughters, Esther, aged 14, and Angela, aged 2, but the children are said to be not seriously hurt.

Neighbors of Mr. and Mrs. Albyn who were called by telephone by the Advocate this afternoon, stated that no word had been received regarding Mrs. Deinhart's condition. They refused to make any other comment for publication.

The details of the shooting are contained in a special telegram from Detroit, as follows:

Detroit, Mich., April 1.—Coming to Toledo from Detroit Wednesday noon, after learning his wife had been granted a divorce, Frank Deinhart, 47 years old, formerly of Columbus, shot the woman in her home, 161 Baker street; shot his daughters, Esther, aged 14, and Angela, aged 2, and escaped. He was captured several hours later in a rooming house.

Mrs. Deinhart, who is 43 years old, was taken to St. Mary's hospital with two bullets in her back and one in her left side. Her condition is critical. The daughter's wounds are not serious. Deinhart, under the influence of liquor, the police say, entered the kitchen of his wife's home, and after asking, "How are you feeling?" began firing before she could answer. He used a .22 caliber pistol and fired seven shots before escaping.

At the hospital, Mrs. Deinhart told the police that drink was the cause of all the trouble. Two years ago, she was separated from her husband because of his love for liquor. Shortly afterwards he went to Toledo, where he obtained work. Two weeks ago, Mrs. Deinhart secured a divorce, although the husband, at the time, tried to stop proceedings by threatening to shoot the wife's attorney in his office.

Deinhart is in central station, awaiting the outcome of the injuries he inflicted upon his former wife.

Mrs. Albyn, daughter of the injured Detroit woman, is the wife of H. A. Albyn, manager of the Everett fruit farm, near Black Hand. Mr. Deinhart is said to have visited the home recently.

Police Chief Sheridan received a message Wednesday afternoon telling of the tragedy and asking him to aid the Detroit police in arresting Deinhart who was believed at that time to have fled to Ohio and the Detroit police thought he would come to Licking county. A later telegram, however, told of his capture in that city.

### SPOILING THE WILDWOOD.

The wind blows free, and the hovering mist  
Gives way to the sun's bright glow.  
The sighing out by the zephyr kissed  
Has a song that is sweet and low.  
Afar in the valley the stream extends  
Like a ribbon of silver bright,  
And the birds that build where the willow  
low birds.

Are happy from morn till night.  
Along come people who bring their lunch.  
And they scarcely regard the scene.  
The chipmunk sits and observes them  
munch.

A picnic or a sardine.  
Oh, Nature, with all her splendid plans,  
Anger must surely feel  
As we strew the landscape with old tin  
cans.

And paper and orange peel!  
DON'T DO IT ANY MORE!

## Better Newark.

The City Federation of Women's Clubs in announcing its line of work for the coming year, has laid special stress upon the need for united effort to aid the Public Library, and of encouraging co-operative sentiment toward civic improvement, which may crystallize into the accomplishment of many reforms that will make Newark, even more a desirable city in which to make one's home.

There is no one element of strength, which is more powerful toward achieving such an object than the concentrated effort of organized womanhood in any community. In any sphere in which a woman should be active, she is puissant toward effectuating any object that is an ultimate end. And it is certainly well within the scope of club women's activity to urge with importunity not only upon the citizenship of Newark, but also the legislative, executive and administrative authorities the policy of civic betterment. This term is one of broad significance which is oftentimes mentally circumscribed by the intellectual habits and desires of the one to whose attention it is brought. To some it appeals exclusively to the aesthetic, to others the material and utilitarian. But there is a happy and proportionate blending of these ideas in the minds of those Newark women who have determined to accomplish their desideratum.

As an instance of this some of the aims may be mentioned. To clean up and beautify the premises; plant flowers; remove garbage and rubbish; to have plugs installed to keep fresh the grass in the court house park. The bringing about of any and all these objects will conduce to better health, more happiness and indirectly greater material prosperity. The appeal is made for co-operation of the housewives, property owners and children toward the end in view, and it should be given not grudgingly and perfunctorily but cheerfully, with an earnest, systematic endeavor to realize the laudable prospect of a really "better Newark."

## How to Promote Town Growth.

The Advocate announces that it will shortly begin publication of a series of six feature articles on the subject of "Town Promotion." Thus he has gained their personal experiences in the actual work of town promotion.

The views of several very bright men who are devoting their lives to this work will be given, and will be of deep interest to all who desire to see our home town advance. The writer

Lloyds are betting even money the war will end September 1. As it will then have lasted 13 months it is sure to be unlucky for somebody.—Pittsburg Gazette Times.

## The Colonel Speaks.

Now that Colonel Roosevelt has tried to insult the president the Republican organs are remarking with great glee that he seems to be recovering his old punch. If he would only relegate President Wilson to the Ananias Club the G. O. P. might even think of taking him up for president again. Look out for some choice billingsgate from Oyster Bay in the next few months.—Philadelphia Record.

## Slim Men in Style.

It has never been the fashion for women to be fat, but until lately the sailors have not presumed to dictate to man concerning his avoirdupois. Now the dictum has gone forth that masculinity, to be stylish, must be slimmer than ever during the coming season. The mode of the moment makes him look like a shadow. Gone are the padded shoulders, the built-up back, the roominess of coat and waistcoat and the wide trousers that covered a multitude of shins. A few years ago any youth when he had his coat on could masquerade as a Sandow. Now he must try to resemble as much as possible a living skeleton.—Pittsburg Gazette Times.

## Uncle Sam's Navy.

One of the reasons for building the Panama Canal was that it would enable us speedily to transfer our fleet from one ocean to the other. Now that the enterprise is complete, Pacific coast congressmen are insisting that they must have a United States navy of their own in Western waters at all times. If a few demagogues in California could be made to behave themselves, it is probable that the original Panama scheme would work very successfully as a defensive measure for a long time to come.—New York World.

## Unrest in India.

It would be strange if India passed through the crisis without great strain, and the report of Sir Reginald Henry Craddock that growing lawlessness and sedition had made it necessary to give the military authorities greater powers brings no surprise. While the war last India will of course, be a cause of great anxiety to the empire, not because it is disloyal, but because the changes of recent years, rapid even in the unchanging East, have produced there, as elsewhere, a widely diffused unrest. Certainly India has no desire to change masters, and it has more to hope for from England than it would have from Germany or Russia in the way of progressive home rule. But with education and economic betterment has come the inevitable uneasiness which accompanies rapid development, and even before the war England had some hard problems to deal with, particularly with reference to migration of Hindu labor to other parts of the empire. The Mohammedans, too, have been excited and sore of heart ever since Italy and then the Balkan States assaulted Turkey, and altogether the situation is one that will call for the utmost tact and skill on the part of the government.—Springfield Republican.

 It was the rush hour in the cafeteria, one of those quick lunch places where you help yourself and grab a chair and use the arm of the chair as a table. A rushed feeder grabbed a slice of pie and popped out a chair. Then he remembered that he needed coffee and he dashed over to the service counter. When he returned with his coffee his chair was occupied by another hurryup diner.

"Excuse me," said the first man, "but that is my chair."  
 "How do you know it is your chair?" demanded the occupant in a surly tone.  
 "Because I can prove it," stated the first man.

## GOING TO SCHOOL.

"I hate to tool my feet to school," we hear the boy confess. "I'd like to play the livelong day and dodge the useful lesson."

The rule of three gives pain to me, old Euclid makes me weary, the verbs of Greece disturb my peace, geography is dreary, I'll go and fish; I do not wish to spend my lifetime schooling; I do not care to languish there, and hear the teacher drolling. His books he hates, his maps and

slates, and all the schoolhouse litter; he feels oppressed and longs for rest, his sorrows make him bitter. The years are restless friskers; the school-boy small is now grown tall, and has twelve kinds of whiskers. "Alas," he sighs, "had I been wise, when I was young and sassy, I well might hold, now that I'm old, a situation classy. But all the day I thought of play, and fooled away my chances, and here I strain with grief and pain, in rotten circumstances. I'm always straddled, I'm handicapped by lack of useful knowledge; through brainy tears I view the years I loafed in school and college!"

## The Tire That Was Never Skimped

You know the reason for Goodyear success. It's the basic reason for every lasting success. We simply gave the best.

Last year we sold about one tire for every car in use. We sold 14 times as many as we sold in 1909.

## Prices Down

We gave it when we held a minor place. We built a super-tire, excelling every rival in five important ways.

We gave it in days of small output—when these costly extra features compelled a price one-fifth above our rivals.

With multiplied output cost came down. Again and again we cut prices. Our last big reduction—made February 1st—was the third in two years, totaling 45 per cent.

## Men Found Out

Users proved that these tires saved trouble, gave greater mileage, cut down cost of upkeep. They told others, and Goodyear sales grew fast. Soon Goodyears reached top place in Tire-dom, and they've held it ever since.

Yet Goodyear Fortified Tires are built better than ever. We spend \$100,000 yearly learning ways to improve them. And they still retain those live great features, found in no other tire that's built.

Don't you think it time now that you found out what such tires mean to you? Any dealer will supply you.

## Society

A family reunion was held at the home of Mr. and Mrs. J. H. Willey of North Hanover, Sunday, March 28. The day was pleasantly spent with music and at noon an elaborate dinner was served to the following: Mr. J. C. Willey of Johnstown, Pa., Mr. A. T. and H. B. Willey of Centerville, O., Mr. and Mrs. J. W. Willey of Hanover, Mr. and Mrs. Gabe Carthal and son Kenneth, Mr. and Mrs. H. L. Smith and family, Mr. and Mrs. Harry Willey and children, Mr. and Mrs. Alward Hossin of Black Run.

This is the day in which women are really "doing things" in the business world, and many an establishment owes its systematic regulations to the ingenuity of a woman, and the initiative of present day business women is exemplified by Miss Gertrude Metcalf, an employee of the Baltimore and Ohio Railroad at Cleveland, whose recommendation in the interest of efficiency and economy in handling business correspondence bids fair to save her company a large sum of money.

Observing the method of posting mail in the railroad superintendent's office, as well as in most of the larger business establishments in Cleveland, of sealing each envelope which permits it to be used but once, Miss Metcalf recommended the use of mucilage rolls for sealing communications. The suggestion made by Miss Metcalf, who is employed as a file clerk, has been adopted, and with the new method of sealing envelopes and by using the universal front containing space for twelve addresses, it will be possible for the Baltimore and Ohio to secure the maximum service from this class of stationery.

Miss Metcalf has received honorable mention from efficiency and economy committee of the Baltimore and Ohio as a result of her thoughtfulness.

Dr. and Mrs. W. E. Shrontz entertained with a six o'clock dinner of pretty appointments at their home in Linden avenue, Wednesday evening. The table was centered with a wicker basket filled with sweet peas in pink and white and dainty pink and white nut baskets bearing the name of the guests were at each place. Covers were laid for Mrs. Neva Reese, Mrs. J. F. Shrontz of Martinsburg, Dr. and Mrs. P. H. Cosner, Misses Fae Young, Beatrice Kirk, and Mr. William Cosner.

The Idle Hour club members were entertained at the home of Mrs. F. C. Mayer in North Fourth street yesterday afternoon. The afternoon's program consisted of several piano numbers, and a reading by Mrs. John Davis, after which a dainty two course luncheon was served. All the decorations were suggestive of the Easter celebration. The guest of the club was Mrs. H. B. Coulter. The club will meet in two weeks at the home of Mrs. Trees in 55 Pennine avenue.

The members of the Unity Sewing Circle of The Daughters of America, will be entertained at the home of Mrs. Sunderland in North First street, on the regular meeting day.

Mrs. Edward Kibler is entertaining at her home in Granville street, Miss Winifred Wilson of New York City, who formerly resided in Newark, and on Wednesday afternoon and evening a number of the friends of Mrs. Kibler and Miss Wilson were invited to the Kibler home for an informal showing of the beautiful Arts Craft work done by Miss Wilson and her sister, Miss Alice Wilson.

The art of interior decorating was shown and many beautiful tapestries were displayed with hand work in leather and wood. A wonderful collection of hand-made jewelry, the work of Miss Alice Wilson of New York was shown, and admired by the number of visitors.

### CAMP-BEESON:

Wednesday afternoon at 2 o'clock, Mr. A. Earl Camp and Miss Jennie M. Beeson were married by the Rev. R. G. Bowden at his study in the First Methodist church. Both of these young people are from Pataskala and they will reside on a farm west of Alexandria.

The Liberty club met at the home of Mrs. John Embury in Ohio avenue, last evening.

### SEYMOUR-COOKSEY:

Mr. Bert R. Seymour and Mrs. Nora J. Cooksey, both of Utica, were married at the parsonage of the Central Church of Christ at 4 o'clock on Wednesday afternoon, Rev. W. D. Ward reading the service. Mr. and Mrs. Seymour will make their home in Utica, where the former is employed as a barber.

The Unity Reading Circle was pleasantly entertained on Tuesday afternoon at the home of Mrs. T. A. Baxler, in North Fifth street, where the following program was given:

Quotations, "Spring"—Mrs. Coulter. Reading, "The Old Pacific Capital" (Stevenson)—Mrs. Swingle. Paper, "French Cathedrals"—Mrs. Mitchell.

Reading, "Song of Our Syrian Guest" (Knight)—Mrs. Loudin. Critic—Mrs. Rhoads.

Mrs. Baxler served a dainty refreshment to the club members and guests, Mrs. James Loughbridge, Mrs. Frank Agnew, Mrs. Harry Howe of Granville.

### Ever Have the Feeling?

Who has not felt the sensation which the French call "déjà vu" or "déjà entendu," meaning that he is doing or seeing or hearing something he has experienced before?

"In a perfectly new situation," writes a physician in the Government Hospital For the Insane, in the Popular Science Monthly, "in a place which he has never before visited, a person believes that he has been a visitor there at some previous time. These feelings of having already experienced such situations are frequently due to memory defects."

"It is probable that what takes place is that one or several elements in the present situation are like those which had been experienced in the past, but that the dissimilarities in the situation are not observed. The individual has a memory defect in that he parallels or identifies a complex present experience with a similar complex past experience, although in the present experience the number of elements which are the same as those in the past may not be very great."

### House Chimneys.

Chimneys were scarcely known in England in the year 1200. One only was allowed in a religious house, one in a manor house and one in a great hall of a castle or a lord's house, but in other houses the smoke found its way out as it could. The writers of the fourteenth century seemed to have considered them as the newest invention of luxury. In Henry VII's reign the University of Oxford had no fire allowed, for it is mentioned after the students had supped, having no fire in winter, they were obliged to take a good run to get heat in their feet before they retired for the night. Hollished in the reign of Elizabeth describes the rudeness of the preceding generation in the arts of life.

"There were," says he, "very few chimneys. Even in the capital towns the fire was laid to the wall, and the smoke issued out of the door, roof or window."

In the year of 1639 a tax of 2 shillings was laid on chimneys.—London Strand Magazine.

### Woods We Use in Our Toys.

"It must not be considered that dolls are the only wooden toys in the manufacture of which American industry has been progressing," says the Southern Lumberman. "Among the toys made in this country from American woods are toy animals, blocks, boats, cannon and forts, children's chairs, circus sets, dolls, doll furniture, games, Christmas tree holders, swing jumpers, children's pianos, pastry sets, babies' play yards, toy shooting galleries, hobbyhorses, popguns, toy wagons, toy autos and wheelbarrows. Basswood is the principal material for wooden toys and for wooden parts of metal toys. Next to basswood, sugar maple, beech, birch and white pine are the principal woods used for toys. The amount of woods used annually in the United States for toy manufacture is nearly 20,000,000 feet."

### A Prohibited Inscription.

In the west cloister of Westminster abbey, in the oldest part of the building, imbedded in the pavement is a slab of marble marking the grave of John Broughton, who was a verger in the abbey for more than thirty years and before he obtained the situation was the champion prizefighter of Great Britain, holding the belt for more than twelve years. The guides who show people around the abbey say that when he was buried in the cloister some of his admirers wanted to immortalize him with an appropriate epitaph, and they indicate a blank space under his name which was left for the inscription. "For twelve years champion prizefighter of England," but it was prohibited.

### "Landlady."

The distinction which the possession of land used to give is still exemplified in the titles of "landlord" and "landlady." Persons are amused at the colored washerwoman, for instance, who insists on the term "lady." But let the same woman run a rooming house of whatever description and she is not a "landwoman," but a "landlady."—Kansas City Star.

### Exasperating.

"The phrase 'He hates himself' is intended for sarcasm when applied to an egotist, I believe."

"Quite right, but it's the unvarnished truth when applied to a man who starts to tell a funny story and forgets how it ends."—Birmingham Age-Herald.

### Self Protection.

"I always take my wife with me when I buy a new hat."

"That's considerate."

"No, it isn't. If I buy one by myself she blames me for the way I look in it. If she goes along I blame her."—Washington Star.

### Too Familiar.

"I suppose you are familiar with the works of Bobby Burns?"

"Certainly, and also with the works of Billy Shakespeare, Georgie Byron and Jack Milton."—Boston Transcript.

### Don't Be Conceited.

If you make yourself the center of the universe all your perspective is skewed. There is only one moral center of the universe, and that is God.—Woodrow Wilson.

## Teaching Sing Sing Convicts to Knit.

### MRS. ERNEST SCHELLING

Knitting at the opera, knitting at the fashionable dance, knitting at the informal tango tea, has grown so common it isn't noticed any more. But the fact that the convicts up at Sing Sing are knitting for the Poles is really interesting. The idea of having those doing time up the river making things for the people between the German and Russian will stones originated in the mind of Ernest Schelling the American pianist. The credit for the application of the idea belongs to Warden Thomas Mott Osborne, the philanthropist-pedagogue. The knitting at Sing Sing is of

### ERNEST SCHELLING

course entirely voluntary. But two hundred men ply the needles all the time they are not in the shops, the mess hall, or sleeping. The knitted bands, mufflers, socks and such are sent down to Mrs. Schelling, both the famous pianist and his wife being leading members of the American Polish Relief Committee, and by them are shipped to Poland. Schelling knows how hard the Poles are hit, for he owns, or did own before the war, a great deal of Polish property. In his student days Schelling was the only pupil of Fiedorowski, and has spent much time in Poland.

### Overheated Stack.

An overheated stack from the boiler room in a detached building at the room of the Newark Provision Company in Wilson street set fire to the roof of the building Thursday morning at 11:15 o'clock causing a small fire. A telephone alarm caused Box 53 to be sounded which called all the fire apparatus in the city to the factory. The loss was nominal.

**New York Stock Exchange.**  
[Associated Press Telegram]  
New York, Apr. 1.—Uncertainty marked the course of today's early trading in the stock market. Opening prices showed minor losses in a number of the leading issues, such as Reading, New York Central, Canadian Pacific, Baltimore and Ohio, Lehigh Valley and United States Steel. On the other hand, Rock Island, Erie, local traction, motors and equipment shares rose from fractions to over a point. American Sugar was prominent for its advance of two points. The feverish undertone of the list was wiped in the speedy cancellation of Rock Island's advance and in other variable movements.

Trading in the first hour was again on the scale of a million share session, but tapered off later. The market's unusual character was reflected in the activity of minor railways like Rock Island and Erie, which led all others. Standard shares with few exceptions fell under yesterday's quotations and Rock Island declined until it showed a loss of almost three points from the preceding day's close.

**Chicago Grain.**  
[Associated Press Telegram]  
Chicago, Apr. 1.—Possibilities of a larger domestic crop this year than last the entire last season ended today to make the wheat market sag. According to estimates by a leading expert, the condition of the fall-sown wheat showed an actual gain as compared with December. Besides the territory likely to go to harvest seemed to be more than 4,000,000 acres in excess of the previous high record. Influenced largely by these figures, the market opened at the same as last night to a shade lower and after a moderate rally, turned again downward.

Corn sympathized with the weakness of wheat. Offerings, though, were not heavy. After opening unchanged to 1/2 cent lower, prices hardened a little but then suffered a decline all around.

Traders in oats took their cue from the bearish action of other grain. Business looked quiet. No selling by packers carried down provisions. What demand there was came chiefly from shorts.

# Flies Are Wholesale Carriers of Infectious Diseases

OVER 6,000,000 germs have been found on the body of one common housefly.

The latter is an involuntary carrier of disease germs through accidental contamination of its feet or body or wing or buccal equipment.

The fifth frequenting habits of the insect are responsible for its transmitting typhoid germs. It frequently is burdened with various germs of other diseases as well, and, according to Dr. Williams and other eminent authorities, millions of bacteria are sometimes to be found on the body of a single fly.

It was Dr. L. O. Howard, the government expert entomologist, who first recognized the housefly as the typhoid fly. He has done humanity great service in calling public attention to the chief danger with which it menaces us. There are nearly 500,000 cases of typhoid fever yearly in the United States and nearly 50,000 deaths. Forty-nine thousand infants die annually of enteritis, or summer complaint. In both diseases most of the germs are distributed by flies. It is impossible to estimate how greatly the fly figures in the ravages of tuberculosis, diphtheria and cholera. Flies are now known to be the most deadly enemy of man.

**His Career.**  
"What has become of that son of yours who was going to set the world on fire one of these days?" "He has gone into the ice business."

Boston Transcript.

**Presidential Fear.**  
"Just wait till 1916!" said the man who has sudden spells of enthusiasm. "What'll happen then?" "Well, come to think of it, I suppose we'll have a few brief months of exhilaration and then we'll settle down and wait for 1920."—Washington Star.

**Kind.**  
"Does your wife neglect her home in making speeches?" "Not a bit of it," replied Mr. Meekton. "She always lets me hear the speeches first."—Washington Star.

ark. The store and restaurant both  
being in constant operation over fifty  
years in the same location, 35 South  
Park Place with restaurant in rear  
and fronting on South Second street.  
The store has changed hands only  
once in all these years and the res-  
taurant only twice. Mr. Dillon will  
conduct the restaurant along the  
same lines as heretofore specializing  
his 15c noon lunches.

## Speed of Railway Trains.

Among the fast records of railway  
trains for short distances are the fol-  
lowing: New York Central and Hud-  
son river, one mile in thirty-two sec-  
onds; Pennsylvania, five and a half  
miles in three minutes; Burlington  
route, two and one-fourth miles in one  
minute and twenty seconds; Plant sys-  
tem, five miles in two and one-half  
minutes; Philadelphia and Reading,  
four and eight-tenths miles in two and  
a half minutes.

The fastest time on record for a dis-  
tance of over 440 miles was made by  
the Lake Shore and Michigan South-  
ern from Buffalo to Chicago, in June,  
1906, when the distance of 526 miles  
was covered in seven hours and fifty  
minutes. The fastest long distance run  
less than 440 miles was on the New  
York Central, on Sept. 11, 1905, from  
New York to Buffalo, 430 1/2 miles, in  
407 minutes. The average speed was  
sixty-four and one-third miles an hour,  
with two stops and twenty-eight slow-  
ups, and on Jan. 1, 1903, from Albany  
to Buffalo, 302 miles, in 295 minutes.—

## Girding Up the Loins.

In Biblical times the strong man  
"girded up his loins" when about to  
undertake some feat of physical en-  
durance. And the custom is by no  
means obsolete among certain ori-  
entals at the present time. Thus in  
preparing for a fatiguing journey the  
oriental winds a piece of cloth about  
fifteen feet long and twelve to eighteen  
inches wide tightly around the ab-  
domen and back. It is put on by hav-  
ing a person hold one end while the  
wearer winds himself up tightly in it,  
and the orientals believe that this  
girdle relieves fatigue and guards  
against intestinal troubles by prevent-  
ing chilling. This explanation of the  
sustaining effect of the girdle is prob-  
ably incorrect, although the good  
effects themselves cannot be doubted.  
In all probability it is the support  
given the abdominal muscles, rather  
than the protection to the skin, that  
explains the beneficial results.—Los  
Angeles Times.

## Odd Sheets of Note Paper.

A good way to use up odd sheets of  
note paper for which you have no en-  
velopes is to make them, with the aid  
of your sewing machine, into a pack-  
age of correspondence sheets that need  
no cover. Cut the note paper into  
halves along the folded edge and fold  
each half again. Remove the thread  
from your sewing machine needle and  
carefully run the paper under the guide  
of the machine, leaving an accurate  
quarter of an inch margin on three  
sides. The fold of the paper should re-  
main untouched. That makes a double  
sheet, three of the four edges of which  
are perforated. When you are ready  
to send a letter write on the inside of  
the folded sheet, then moisten the  
edges with glue, seal them and write  
the address on the outside of the fold-  
ed sheet. The person to whom the let-  
ter is addressed can open it by tear-  
ing off the margins that seal it.—  
Youth's Companion.

## Unquestioning Obedience.

Much trouble as well as much amuse-  
ment was caused during the early  
stages of the Panama canal work by  
the inability of the Jamaican negroes  
to take any except a strictly literal  
view of orders. In unloading a vessel  
at Colon a rope in a pulley at the head  
of the mast got jammed, and a Jama-  
ican was ordered to climb up and re-  
lease it. He did as ordered. Some  
minutes later the boss of the gang  
unleashed him and asked with some im-  
patience where he was. He was point-  
ed out sitting calmly at the masthead.  
"What are you doing up there?"  
roared the boss.

## A Chicago Milk Story.

A family living in South Chicago  
found a good deal of cream on a bot-  
tle of milk which had been standing  
overnight, and when the driver called  
in the morning the pleased servant  
held it up to the light and said, "Look  
here; I have never seen anything like  
this before on your milk!"

The man looked at it for a moment,  
scratched his head and replied, "Well,  
I don't know what's the matter, but  
you can throw it out, and I'll give you  
a fresh bottle in its place."—Chicago  
News.

## Can You Beat It?

She—Oh, Jack, do excuse me for get-  
ting here so late! You poor fellow,  
you've had to wait an hour for me!  
He—Oh, no; it's all right! I've only  
just come. She—What! So that's the  
way you treat me, is it? If I'd come  
at the time agreed you'd have made me  
wait a whole hour.—Boston Transcript.

## SPECIAL SERVICES ARE CONTINUING AT CENTRAL CHURCH

The special meetings at the Central  
Church of Christ this week are being  
well attended, considering the sever-  
ity of the weather and large number  
who are sick, and they are proving  
very helpful to those who come. Mr.  
Ward's subject last evening was:  
"The Father's Portrait." Briefly, he  
described some of the outstanding  
traits of Christ's character that por-  
trayed the character of our Heavenly  
Father. Chief among these are His  
universal sympathy, His unending  
love and patience, and His power over  
sin and death. All of these qualities,  
wonderfully blended, make up the  
portrait of the Father, as Jesus re-  
vealed Him to the world. And the  
best part about it is that it was a  
flesh and blood picture, presented in  
terms of human life, such as we can  
all understand. Then this portrait is  
given us, not for admiration alone,  
but for reproduction. The most cost-  
ly portrait paintings in the world  
have been reproduced. The reproduc-  
tions have not been perfect by any  
means, but they have faithfully set  
forth the features of the person whose  
picture it was. That is our task: to  
reproduce faithfully the characteris-  
tics of the original portrait, and pre-  
sent them to the world in our lives.

Careful preparations are being made  
for the services next Sunday morning.  
It is hoped that there will be at least  
1,000 people present. The combined  
service will begin promptly at 9:15  
and close at 11 o'clock. It is greatly  
hoped that every person will be pres-  
ent on time, at 9:15, and plan to stay  
until 11 o'clock. There will be no

shifting of classes. The class ses-  
sions will begin at 9:30. At 10 o'clock  
the doors in the rear of the main au-  
ditorium will be thrown open, but the  
classes will remain in their places for  
the brief sermon and the communion  
service. At the same time, there will  
be a simultaneous service for the  
Junior and Primary departments, in  
the basement. All will be dismissed  
at 11. All of the members and friends,  
including the country people, are  
urged to come at 2:15.

The evening service will begin at  
7:30 (note the change in time). The  
chorus choir, under the leadership of  
Miss Hughes, will give a splendid pro-  
gram of Easter music, closing with a  
very brief address by the pastor. The  
sunrise prayer meeting, under the  
auspices of the United Young People's  
Societies, will be held in this church  
at 6 o'clock in the morning and the  
Junior Endeavor society of the church  
will give Easter exercises at 8 p. m.

ed from Japan via San Francisco. She  
will visit New York immediately  
afterward returning to Granville,  
where she has many friends.

Tomorrow afternoon the regular  
meeting of the Baptist Women's Mis-  
sionary Organization will be held in  
the church parlors at half past two  
o'clock.

## PUBLICITY

WILL NOT BE GIVEN AMERICAN NOTE, AT REQUEST OF THE BRITISH GOVERNMENT

State Department is Investigating Death of American Citizen Aboard Falaba.

ASSOCIATED PRESS TELEGRAM  
Washington, April 1.—Ambassador Page, at London, had not reported today the death of Leon C. Thresher, an American lost in the sinking by a German submarine of the British steamer Falaba, but President Wilson and state department officials were studying the case to determine whether the United States should bring the incident formally to the attention of the German government.

At the time the American note was sent to Germany on the submarine blockade stating the United States would hold the German government to a "strict accountability" in the event of the destruction of neutral ships, "or the loss of American lives," the language of the communication officials said, permitted a broad construction covering the loss of American citizens traveling aboard belligerent vessels.

Just what the circumstances were however, under which Thresher lost his life, are facts on which the American government probably will seek definite information before deciding on its course.

At the request of the British foreign office the American note on the order in council, instead of being published simultaneously tomorrow morning in the United States and England, will not be published until the morning of Wednesday, April 7. It was explained that the week and the Easter holidays in England made the postponement desirable.

The American note to Germany over the destruction of the American sailing ship William P. Frye by the German raider, Prinz Eitel Friedrich, has been dispatched to Berlin. Acting Secretary Lansing of the state department said today the note would be made public here as soon as it had had time to reach its destination.

The representations of the United States concern only the vessel and do not discuss the question of cargo, which the state department is satisfied was not American owned.

The note contends that there was no justification for the sinking of the Frye; that a neutral vessel carrying a cargo of wheat, not confessedly contraband, was sunk when a release of the vessel would have involved no vital consequence to the Prinz Eitel Friedrich.

On account of the difficulties of communication between the German embassy here and its foreign office, the ship's papers and Commander Thresher's report of the case were sent three weeks ago by mail. Officials at the German embassy estimate that they have just about reached the foreign office and predicted an early reply to the American representations.

While no German official would discuss the question today, it was learned recently that the German ambassador, Count Bernstorff had recommended the reimbursement of the owners of the Frye for its full value and since then officials of the Washington government have assumed the case would be settled without difficulty.

## DUTIES

(Continued from Page 1.)  
continue to embarrass this administration with such difficulties, any necessary appointments here will be made entirely without regard to these disputes; it shall be my endeavor to select the best men, independent of factional association, whom I am able to find for such places.

"In my opinion, the rank and file of the Republicans of Franklin county are not interested in factional quarrels among leaders, but desire appointments to be made upon merit and without regard to factional alignments.

Otto Hankinson of Toledo, head of the Republican organization of Lucas county was still closeted with Governor Willis this afternoon trying to reach an agreement on a Democratic appointee for his county. It was said the governor probably would name a "dark horse."

## BROWNSVILLE

Herman Loughman, who has been quite ill with whopping cough and pneumonia, is improving.

## HOLY WEEK IS BEING OBSERVED BY CITY CHURCHES

Holy Week, or the concluding week of the Lenten season, is being celebrated in a number of the churches of the city this week, and today is known as Holy Thursday, or the day on which the Last Supper was held by Christ, and the sacrament of Holy Communion or the Holy Eucharist was instituted.

In the Catholic churches services were held this morning and following the high mass, a procession of the Blessed Sacrament was given and the Sacrament will be exposed during the day and the members of the congregation will visit the church during the various hours for meditation.

On Good Friday morning services will be at 8 o'clock, and at 3 o'clock in the afternoon the Stations of the Cross will be said in commemoration of the Passion and Death of Christ.

On Saturday morning or Holy Saturday all the blessed oils and baptismal and holy waters will be blessed.

Services will be held in a number of Protestant churches this evening and beginning at 9 o'clock Friday morning union services lasting until 3 o'clock in the afternoon will be held in the First Presbyterian church, and a number of the ministers of the city will participate in the services.

All churches are preparing elaborate Easter musical programs.

Holy Week is being appropriately observed at Woodside Presbyterian church each evening this week. Mr. Ray Evans, who has made a special study of the last week of our Lord's life, is giving excellent discourses to seed congregations.

This evening the subject will be the Passover and how it became the sacrament of the Lord's Supper.

On Friday evening, "The Crucifixion," Mr. Evans expects to bring a quartette with him, either this evening or Friday evening. As Mr. Greene goes to Fairmount for a special Easter service Sunday morning the communion at Woodside will be held in the evening.

## NEW STOP ORDERS NOT A JOKE FOR FIRST OF APRIL

Some patrons of the city street car lines Thursday might have thought that the motormen were playing an April Fool joke when they stopped their cars on the opposite corners. The motormen, under new orders from the superintendent, are complying with the ordinance recently passed by the city council making changes in the custom here of stopping cars after crossing the streets.

The new order caused some inconvenience. Those who had noted the passage of the ordinance had forgotten about it. Most of the patrons had overlooked the ordinance entirely. The new order is to the effect that all cars shall stop before crossing the intersecting streets and before turning corners. Exceptions are made in certain streets. At Main and Fourth streets, both east and westbound cars will stop on Fourth street. At Main and Third streets cars will continue to stop on Main street.

As a result of the new stop order, car crews found some difficulty in maintaining schedules because of the long waits for taking on passengers who were compelled to cross the intersecting street and walk the length of the car before climbing aboard.

Patrons will do well to remember that it is not sufficient to stand on the "near" side of the street, but allowance must be made for the length of the cars, which stop before reaching even the intersecting walks, therefore leaving the rear steps 20 to 30 feet away.

The ordinance provides, "That all city cars and local interurban cars shall stop just before crossing any street intersection while traveling on paved streets," with the exceptions noted. It further provides that all limited cars shall stop at Main and Third streets, Main and Union streets and in East Main street at the Pennsylvania railroad crossing. The same ordinance provides that the lower stop of all cars shall be not more than 12 inches above the top of the rail.

Plenty of it. "She talks like a book." "Yes, the volume of her speech is truly wonderful!"—Judge.

what hazardous because of numerous guerrilla bands operating between Mexico City and the coast. The bands composed of many former federal troops who served under Huerta, have been harassing Carranza's line, requiring an extension of the outposts surrounding Vera Cruz and its entrenchments.

The food situation in Mexico City continues bad. Latest reports indicate however, that the danger of another evacuation by the Zapata forces has apparently passed. The friction between Roque Gonzalez Palafox and other Zapata leaders has been smoothed over.

Villa forces, recently repulsed near Matamoros, are preparing to renew their attack with artillery reinforcements. Villa troops have invested Manzanillo and Mazatlan, held by Carranza garrisons.

## GRANGE ORGANIZED AT ALEXANDRIA BY ARTHUR W. CALDWELL

Licking county is still in the lead in Grange work, leading all others in the great state of Ohio. Another new organization that promises to be a sure winner with an unusually strong charter list, Alexandria Grange No. 1989, was recently organized by Arthur W. Caldwell, organizer for the Sixth District of Ohio, with 130 charter members, that would be a credit to any community or organization. This Grange can boast of two members that are veterans in the world and have covered themselves with glory in years past, but their work still stands. Bro. V. C. Stiers did quite a little organizing many years ago in Morgan and other counties in southern Ohio, and relates his experience with pride and interest to any one interested in the great work, and is very much interested in this new organization. Bro. D. C. Brooks deserves quite a little credit for Grange conditions in Licking county, being one of its first organizers. In 1847 he organized Bennington No. 977, Newark No. 1004 and Wyoming Valley No. 1069. These organizations rank with the best, and two of them are among the largest in membership in the county. Alexandria is an ideal location for a Grange. The town is prosperous and up to date and is well patronized by the community. The stores, bank, hotel and schools and other industries would do credit to a town many times its size. The farmers are among the most up to date and prosperous of the county.

The Grange is well officered with men and women that are well qualified for their positions. The Worthy Master, Walter Castle, is a college graduate, having spent years in Denison and Harvard, and has three brothers professors in Harvard, Chicago University and Columbia. ## How Newark Woman Cured Her Backache

Points the Way in Letter to All Who Suffer as She Did.

Mrs. A. F. Wilson of 443 W. Church St., Newark, Ohio, says: "For a long time my back gave me a great deal of pain. I suffered continually with sharp shooting pains across the kidney region and at times I could hardly stoop over. Nothing gave me relief until I started taking Lloyd's Kidney and Rheumatism Tablets. This new scientific prescription helped me from the first and I am glad to recommend them to anyone suffering with backache. To a person suffering with backache I advise getting a box of Lloyd's at once."

## INHERITANCE TAX ON ART TREASURES OVER TWO MILLIONS

(ASSOCIATED PRESS TELEGRAM) New York, April 1.—Although the legal time limit of two years within which J. P. Morgan might have escaped the necessity of paying an inheritance tax upon his art collections by giving it to a public institution had expired today, the Morgan estate had not signified to the state comptroller its intention to make such a disposition of the collection.

The Morgan collection, now on exhibition in the Metropolitan Museum of Art, has been estimated to be worth between \$45,000,000 and \$70,000,000. The inheritance tax on it has been estimated at from \$2,000,000 to \$3,000,000.

## Readers' View Point

From Director Christian.  
Editor of the Advocate:  
Last Saturday, Mr. Burke of the Burke Golf Shaft company made some comment upon my ability as an efficient official. It is very common to make attacks when out of humor and then a person afterwards regrets that he was so indiscreet. Usually it comes because the aggrieved one desired some special favor, or thought he should have received one. With Mr. Burke the case is peculiar from my position, for at no time have I had any business transactions with him, and how he could say that I refused him, is beyond analysis. He never was refused to be allowed to dig any trench, because he never asked for the privilege.

Now, it has been my practice whenever parties had any work done, for which I required them to pay for, that the consent to do any labor work was freely given them. Because as no profit on the work was demanded, the city would pay out its funds, and then be required sometimes to wait several months before they got it back. Several times we have been compelled to insist upon payment after waiting for several months, and which may be the trouble in this case.

We were requested repeatedly to do this work, at a time when the ground was frozen 15 to 18 inches thick, and digging was costly work. His complaint is that I charged him \$25 for work that he could have done for \$10. Digging a curved ditch about 75 feet long and 5 feet deep. The charge was, 99 hours labor \$22.77, and 27 hours, \$9.45, for which we hauled pipe to the place, tools and supplies, returned them to the shop, dug a frozen trench under a platform, under the walls of the building, under the floors, cut the water line, laid it with bends, set a regulating valve, connected the line with the sprinkler system under the floor, and refilled the ditch. The city paid contractors for plain work by the mile 27c per foot, no frozen ground, nor short, tedious work, and paid \$2.50 for setting valves. What contractor would have done his work for the money?

Whether or not the American Bottle company could afford to pay me \$5,000 to run their electrical equipment is for them to say, but I can say that other companies can make current cheaper than they were offered it.

Water works construction companies are scouring the country for just such men that can do \$25 worth of work for \$10.

## CLEVELAND SURGEON, HOME FROM BELGIUM, TELLS OF THE NEED

Dr. George Crile, the eminent surgeon, of Cleveland, who had charge of a hospital in Paris during the late fall and early winter, and Dean Howard McClenahan, of Princeton University, who returned from Belgium less than a month ago, have brought the message of the need for assistance to the war sufferers, to the people of Ohio within the last few days.

Dr. Crile, in the most important address which he has delivered since his return from Europe made the statement that unless the Americans give and give generously, and continue to give until several months after the war is over, that a large portion of Belgium must inevitably die of starvation.

In his address both at Columbus and Cincinnati, Prof. McClenahan placed the number of Belgians in need of continued relief at 7,000,000. He cited a number of the places where this work was going forward. In Charleroi 13,000 are fed, in Liege about 35,000 or half of the population, and 175,000 in Brussels. In smaller cities and villages, practically the entire population must be supported by contributions.

The statement of these first hand witnesses of the need in Belgium has kindled anew the lively interest of Ohio men and women, and the Ohio Commission for the Relief of European War Sufferers has evidence that the generous giving which has been going on for the past three months will be continued. Prof. McClenahan makes the statement that Belgium will need assistance not only until the war is over, but until the first crop shall have been harvested after the war is over.

Gratitude of the Belgians for what Americans are doing for them, he says, passes the bounds of expression.

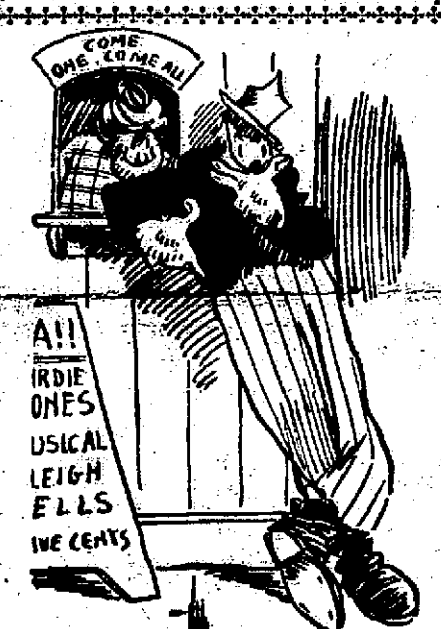

Mortified.

"What is the matter with your old cat? She looks disconsolate these days."

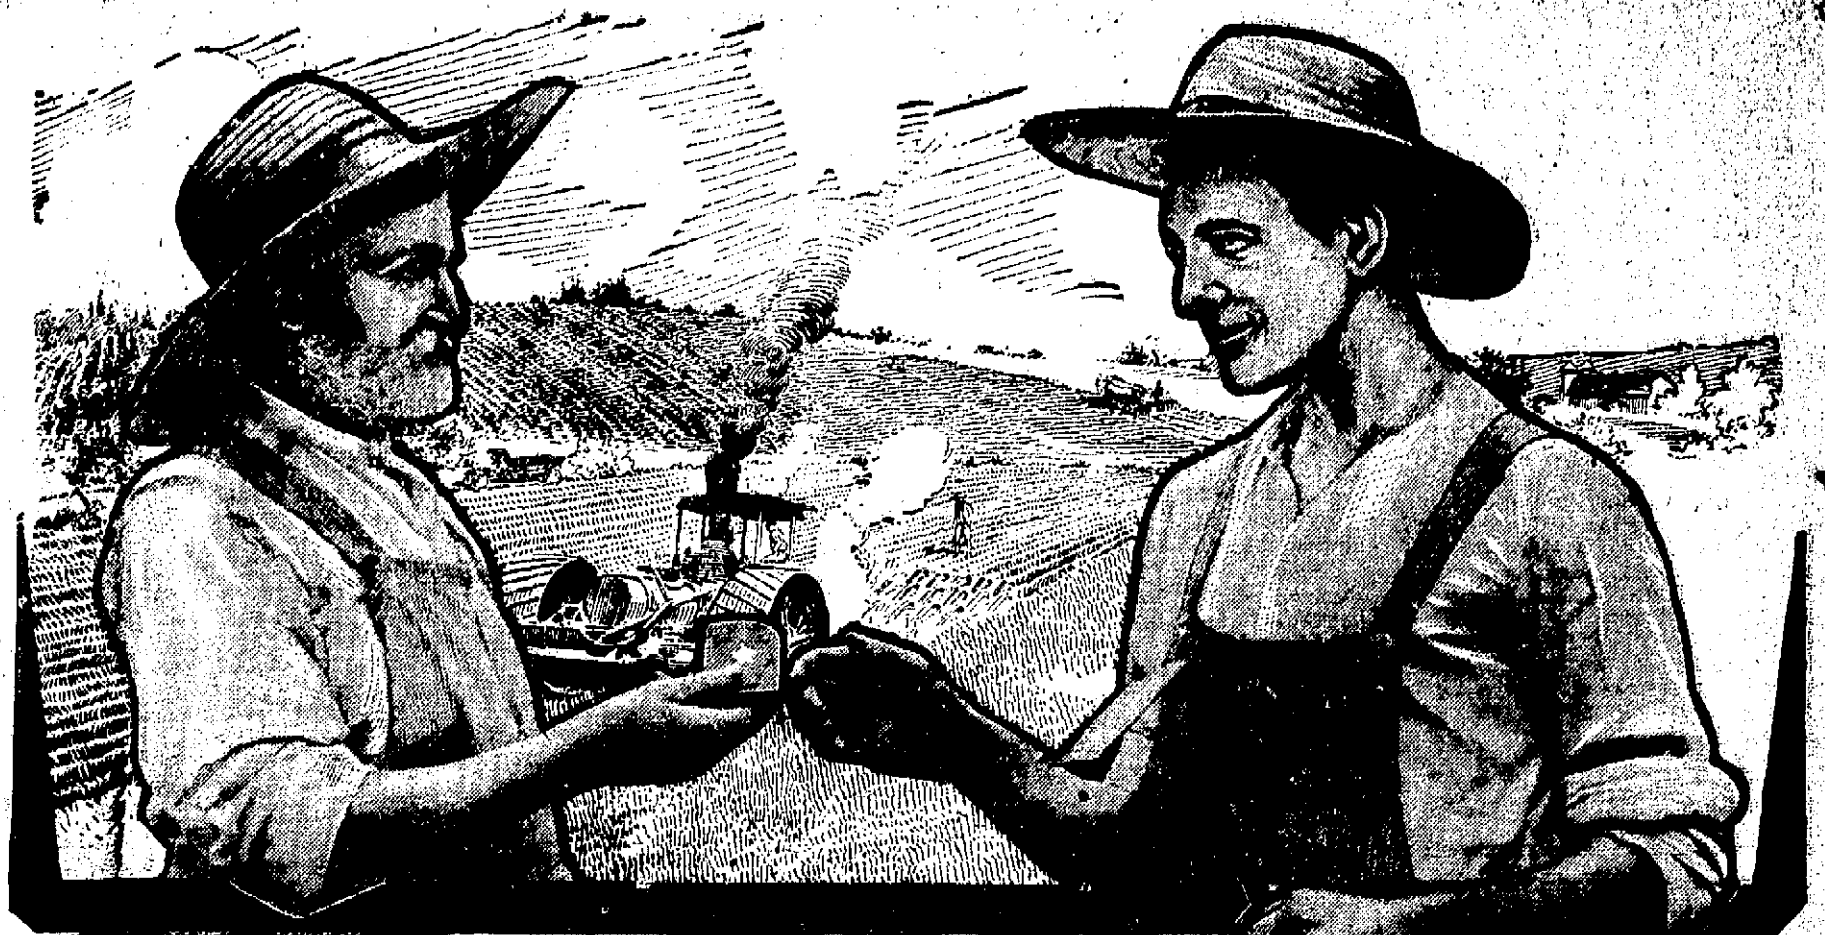

"Paw hurt her feelings dreadfully. Brung home a mouse-trap last week. I told him not to do it. Cats has got their feelings same as anybody else."

"STAR—Good For One—Better for Two"

## Men Who Chew Are Men Who DO

THE farmers, on whom so much of America's success depends, are almost without exception, tobacco chewers. And more farmers use STAR tobacco than use any other brand.

It speaks pretty well for STAR that men who know tobacco, many of them being tobacco raisers, prefer mellow STAR Tobacco—in the thick, tasty plug.

Imagine a ripe orange in a thin-skin. That's just like a plug of STAR—so full of ripe, good "chew" that it can't dry out—made clean and kept that way.

And don't confuse STAR with any of those 14 or 15 ounce "pound" plugs. Each plug of STAR weighs 16 ounces. Ask the dealer to let you see the revenue stamp on the box. That will tell the story of honest weight.

So great is the nation-wide demand for STAR that a year's output of sixteen ounce STAR plugs is equal in weight to 416,666 bushels of wheat.

# ITCHING NEARLY DROVE A WHOLE FAMILY CRAZY

Kansas City, Mo., Oct. 21, 1911.—My husband had a rash all over his body, and soon the WHOLE FAMILY was in the same condition. It looked ugly and raised up on the arms and body in big bumps. This trouble burned and itched so that it would nearly drive one crazy. It was always worse at night, so we could not sleep. We all had this trouble for about two or three years, and during that time tried many remedies and prescriptions with no result. We tried Resinol Ointment and Resinol Soap and it RELIEVED AT ONCE, and before the third jar of ointment had been used, we were all completely cured. It has been four months since we were cured, and there are no traces of the trouble.—(Signed) Mrs. S. A. Clarkson, 1520 Lawn Ave.

# SNYDER WON'T TAKE TAX JOB AT COSHOCTON

Coshocton, O., April 1.—Governor Willis' announcement of the new tax assessors was a real April fool joke on Alex McDonald, Coshocton county assessor. He had the endorsement of the county organization and his name was sent to the governor. It is said, by Senator Vorhees but through some error, intentional or otherwise the name of Seth M. Snyder former postmaster of Coshocton, was announced as the tax assessor instead. Snyder in an interview declared that he would not accept the appointment and for the next few hours after the appointment was made, wires to Columbus were kept hot by Coshocton politicians trying to straighten out the mistake. James Boyle, Republican state taxer, told Snyder he would see that the mistake was corrected.

# CERTAIN RESULTS Many a Newark Citizen Knows How Sure They Are.

Nothing uncertain about the work of Doan's Kidney Pills in Newark. There is plenty of positive proof of this in the testimony of citizens. Such evidence should convince the most skeptical doubter. Read the following statement.

Mrs. C. J. Macklin, 156 1-2 Valandingham street, Newark, says: "I had a severe case of kidney complaint while I was living in West Virginia. I suffered greatly from backache and couldn't sweep the house or do washing on Monday. I had dreadful pains across my loins. Several times I had to go to bed. I was so weak. I also had dizzy spells and headaches. I tried several remedies, but nothing helped me until I took Doan's Kidney Pills. They made my back strong and greatly improved my health."

# FEW FOLKS HAVE GRAY HAIR NOW

Well-known local druggist says everybody is using old-time recipe of Sage Tea and Sulphur.

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture by asking at any drug store for a 50 cent bottle of "Wyeth's Sage and Sulphur Hair Remedy," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. Besides it takes off dandruff, stops scalp itching and falling hair. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance. # GRIFFITHS WILL MEET HARVEY IN COLUMBUS BOUT

One of the most interesting young men in the pugilistic game in the country at the present time is Johnny Griffith, Akron lightweight, who is recognized as the champion of his class in Ohio champion of Australia, and foremost contender for the crown now worn by Freddie Welch.

Griffiths, always a flashy performer, gained worldwide fame when he annexed the lightweight championship of Australia at Sydney, N. S. W., Nov. 14, 1912, by knocking out the recognized title holder, Hughie McEwan, in eight rounds of what was scheduled to be a 20-round battle.

The Akron marvel has accomplished one pugilistic feat this year which has not been duplicated by any other member of the lightweight class—defeating the champion Freddie Welsh and Joe Shugrue within the short space of three weeks.

On February 1, at the East Market street arena, Akron, Griffiths measured his skill against Champion Welsh and the unanimous verdict was that he was a winner by a clean shade. Fourteenistic writers from as many papers in Ohio and Pennsylvania, who witnessed the bout from the ringside, gave Griffiths the victory. There was no difference of opinion as to who had won as in the case of the Welsh-Shugrue and first Welsh-White bouts. Not a single newspaper represented at the ringside gave Welsh as good as a draw.

Three weeks later, Feb. 22 Griffiths fought Joe Shugrue, twice conqueror of Welsh in no decision bouts, and decisively defeated him. He battered Shugrue throughout the bout. Such well known fistic writers as H. T. McDaniel of the Cleveland Leader, Ed Bang of the Cleveland News and others, gave Griffiths ten rounds. Shugrue one round and one round even. Shugrue, by the way, hasn't fought since. He blames his defective eyesight partly to the optic bombardment of the Akron flash.

Griffiths will fight two hard battles next week. On the night of April 5 at Columbus, he will tackle Johnny Harvey, the sensational New York lightweight, and on the night of April 9 at the Duquesne Garden, Pittsburgh, he will try conclusions with Willie Ritchie, dethroned lightweight champion. This will be a six round affair and inasmuch as Griffith has the fastest left hand in the division, his friends will back him heavily to outpoint the former title holder.

# TURKISH TROOPS AT ADRIANOPLE

(Associated Press Telegram) Sofia, Bulgaria, April 1, via London.—A concentration of Turkish troops at Adrianople, the nearest important Turkish town to the Bulgarian frontier, is interpreted in Sofia as a Turkish precautionary measure in the event of war with Bulgaria.

In addition to this concentration, Turkey is increasing the pieces of artillery on the Adrianople fortifications.

# CARUSO

World-famous Tenor, says:

"Tuxedo completely satisfies my tobacco taste. It is mild and has a delicious flavor. Most important of all, from a singer's standpoint, Tuxedo does not irritate my throat."

"Tuxedo Does Not Irritate My Throat"

The non-irritating quality of Tuxedo which Caruso praises is due to the original "Tuxedo Process" by which the tobacco is treated. This process refines the tobacco and absolutely removes all bite and sting.

Many thousands of men think they cannot smoke a pipe, for fear the tobacco might burn or parch their mouths. Tuxedo has done away with any such possibility. You can smoke Tuxedo all day long, without any irritation whatsoever—indeed, with increasing pleasure.

# Tuxedo

The Perfect Tobacco for Pipe and Cigarette

is made from rich, mild, fragrant Kentucky Burley—acknowledged to be the finest pipe-tobacco in the world—aged until it is pipe-perfect and smokes coolly and slowly.

You cut off an inch of inspiration and real joy every hour you stay away from Tuxedo. Because it's so good, so true, so delicious, so fragrant, its memory lingers every time your smoke-appetite gets tuned up.

## ELK INNING PROVED TO BE FINE AFFAIR

The last inning of the season for the local lodge of Elks was held last evening in the Armory in East Main street and proved to be a very enjoyable affair. A fine luncheon was served at small tables at 7 o'clock and about two hundred and fifty participated.

The time was spent in enjoying a varied program under the skillful direction of Dr. H. H. Baker, Frank Schimpf and J. F. Cherry, members of the entertaining committee. Scheidler's German band, Vogelmeier's orchestra and several members furnished instrumental music while a number of duets and vocal solos were also rendered. Short impromptu talks formed a feature of the evening also after which a stag dance was given. Mr. Clem Cole being awarded a prize for being the best waltzer while Ex-sheriff Smith Redman captured the award for doing the best tango. Johnny Maybold and "Butch" McCoy staged a four round boxing exhibition and in the pie contest Herbert Webber proved the champion and was presented with a huge Easter mince pie. There were a number of other interesting features on the program.

The first stag outing at the lake will be held some time next month after the new entertainment committee has been named by the new elected ruler. James R. Cooper, who will succeed Fletcher R. Scott. Mr. Cooper has promised that it will be

## GOOD FELLOWSHIP MEETING HELD AT FIFTH ST. BAPTIST

The good fellowship meeting at the Fifth Street Baptist church, last night, was one every way successful so far as could be judged from the number present, the addresses made, and the menu served. Covers were laid for perhaps 250 at one sitting, but many could not be accommodated, so that the program did not commence much before 8:30 o'clock. The supper was served by the Ladies divisions of the Aid society, and was most excellently prepared and served. It was abundant too, and everybody happy. The tables were decorated with cut flowers, plants and palms and gave a very pretty appearance. The pastor, Dr. Chas. H. Stull, presided and introduced the speakers, the program lasting about one hour. The first speaker was Deacon Van Voorhis, who spoke mainly to the new members, urging them to be loyal to the church activities, regular at all services, because they were needed even by the oldest members. The next was Mr. Dodd, who urged the place and importance of the Sunday school as one arm of the church, saying that all members of the church ought to be in the school. Mrs. Eugene Ball, and Mrs. J. B. Jones spoke of those of the church who had "Crossed the River." The names of these are: Mrs. Sarah Applegate; William Krigbaum; Mrs. Ora Pierson; Mrs. Sarah Smith; B. G. Schilling; M. O. Nash, and Miss Edith Nell. Mrs. J. F. Stuck was likewise recalled, though her membership was not in this church at her death. Following this, all sang, "Shall We Gather at the River?" Then Mr. W. A. Holmes, Dr. C. J. Rose, and Dr. Williams all of Granville were called out for a few words, and their words were greatly enjoyed, for they are well known in Newark, having been in most of our Newark churches, on different occasions. Dr. Williams closed the program with prayer, after all sang, "Blest be the Tie."

## PROVISIONS

AMOUNTING TO FIFTEEN TONS  
ORDERED SOLD BY ENGLISH  
PRIZE COURTS.

Most of the Cargoes Belonged to  
American Firms—Brought Current Prices.

(Associated Press Correspondence)  
London, March 16.—Fifty thousand tons of provisions sent to English prize courts since the opening of the war have been sold within the last week and the money for the cargoes is in the hands of the court officials.

Most of the cargoes belonged to American firms. Wheat, flour and all sorts of provisions were included. Tired of the delay in getting a hearing on their cases, agents of the owners of most of the cargoes welcomed the sale, providing the money is paid promptly.

The provisions were consigned to firms in Holland, Sweden, Norway, Denmark and Germany, and most of them were shipped early in the war to firms which the British suspected were German agents but the cases came up for court decision.

The supplies were bought, for the time being, at a much lower market price than the current price. Naturally the delay, but the sale prices were above the cost and would enable American shippers to break even if speedy settlements are made.

Under the international regulations controlling foodstuffs, the regulations generally accepted by both England and the United States, food is not contraband unless destined for the use of a hostile force. It would have been extremely difficult to prove to the satisfaction of any court that most of the food consignments held in England were of enemy destination, much less than that they were for use of the German army. Apparently the English government did not care to undertake such a task. At one time it was suggested that all detained foodstuffs should be sold to the American Commission for the Relief of Belgium. But the English board of trade would not consent to such a sale, taking the position that the foodstuffs were needed in England. Consequently the cargoes were finally sold at current prices.

## Fix Up The Home For Easter And The Days Afterward With New Carpets, Rugs and Draperies Larger Stocks at Auction Sale Prices

Never before has the big Carpet Section held such vast stocks of the new spring patterns in all the new carpets, rugs and draperies as right now—nor were values ever greater either. Seeing is believing. It costs you nothing to come and see for yourself. We are more than willing to abide by your judgment. We absolutely know that we can save you on each and every purchase as there is no concern in the whole country that buys these lines for less than we do. See these, for instance.

### \$30 Axminster Rugs at only \$23.45.

These strictly high grade rugs are an extra large size. They are 11 ft 3 in. wide and 12 ft. long. They are the heavy Axminster quality, long yarns and absolutely fast colors that will hold the color until they are worn out. These rugs make the ideal parlor rug, because of their soft toned colors and wearing qualities. Rugs that sell ordinarily at \$30. Our auction sale price is only \$23.45.

### \$15 Never-Sprout Brussel Rugs at \$9.45

These rugs are the standard size rugs. They are 9 by 12 ft. A very strong durable rug; absolutely fast colors, and we are showing a very choice range of patterns also as we have just received a largemill shipment of these rugs in the last few days. These rugs are generally sold by many concerns at \$15. Our sale price is only \$9.45.

### 27-Inch Velvet Rugs at only 89c.

House cleaning time is almost here and no doubt you will need some of these 27 inch wide velvet rugs. They wear like iron as they are woven from fast colored all wool yarns and in very good colors and designs, well worth \$1.39. Our sale price is only 89c.

### New Lace Curtains at pr., only 98c.

No doubt you remember the values we have always been able to offer our friends in the past seasons. We are sure that the values this season are in every way fully equal if not better—wide and narrow patterns, new designs, genuine Nottingham laces, overlaid corded edges, full standard lengths, no skimping anywhere. Curtains that are worth from \$1.39 to \$1.50. Our auction sale price, per pair, only 98c.

EAST SIDE OF THE  
SQUARE

### \$1.25 Heavy Inlaid Linoleums at only 79c.

Our big auction sale of carpets and rugs includes several rolls of heavy inlaid linoleums at only 79c a square yard. These are standard makes. The colors go clear through to the back; built for years of service as well as beauty of design. See these before you decide on your linoleum. Well worth \$1.25 a yard. Our sale price is only 79c.

### Another Big Polish Mop Offer at \$1.39.

These are our new polish mops. The any angle handle polish mop is large, full size and triangular, made from cold rolled steel and the highest grade yarns; is marvelous for cleaning and renewing, and a wonderful tonic for lifeless varnish; with this mop we give you a full quart of \$1 size can of Punch Cedar polish. Oil and mop, both for only \$1.39.

## BALKAN STATES NEARLY READY TO JOIN ALLIES

(Associated Press Telegram) Rome, March 31.—Via Paris, April 1.—General Sir Arthur Paget, head of the British military mission, which recently was in Russia and who has visited the capitals of the Balkan states on a special mission to arouse sympathy in favor of the allies, has arrived in Rome. He is said to be of the opinion that the moment the campaign becomes entirely favorable to the allies, if Great Britain, France and Russia can agree on terms of settlement, it will not be difficult to reconstruct the Balkans.

## DEATH PENALTY FOR CIRCULATING ANY CONTERFEIT

(Associated Press Telegram) El Paso, Texas, April 1.—General Villa has ordered that the death penalty be applied to those guilty of circulating counterfeit paper money, large quantities of which are reported in use along the Mexican border. In a statement received here last night from Torreon, Villa said: "I am sorry to say that I have been forced to take this step, because it has been impossible to cause punishment of the culprits in the United States notwithstanding the truthful evidence that we have presented against the defendants in many cases and because the conscious sellers are not prosecuted in any way, and the consequence has been to increase the issue of bogus money."

## HORSES AND MULES FOR EUROPE BEING PURCHASED IN OHIO.

(Associated Press Telegram) Wheeling, W. Va., April 1.—European war countries today entered the horse and mule market in West Virginia and the adjacent counties of Ohio through an agent here who empowered stock men to buy the best grades they could find. Artillery horses were especially desired, and good prices were offered. Local men were commissioned to do the buying because of their knowledge of local conditions and the strain of horses bred in this section.

## ENGLAND'S IMPORTS SHOW AN INCREASE; FIRST SINCE WAR.

(Associated Press Telegram) Washington, April 1.—Imports into the United Kingdom during February, for the first time since the outbreak of the war, showed an actual increase, amounting to 5.18 per cent, according to a report to the department of commerce from American Consul Skinner, at London. Imports aggregated \$317,630,683 which was \$15,646,530 more than for February, 1914. Exports totaled \$127,390,064, being \$73,410,471 less than in February of last year.

## The True Secret of Clean, Healthy Hair

Simple Way to Remove Dandruff Germ That May Be in Hair Roots Though You Don't Know It.

There's a right way and wrong way to do everything and if, people troubled with thin, brittle and gray hair would only stop to think one minute, the growth of long, thick and glossy hair would be a simple matter. Dandruff germs do not thrive outside the scalp and it's utterly folly to wash the head with tonics when the germ is inside the roots. Tonics will dissolve the outside dandruff, but the sticky glycerine in them only glues the broken dandruff in them to the hair and it's but a day or so when the scurf again covers the clothing.

The best authorities on scalp disease, agree that the only sure way to remove the dandruff germ is to apply a remedy that the scalp can absorb—that will nourish the root cells into a healthful condition, in which the dandruff germ cannot live. "Wildroot" is remarkably quick in action, for even the first applications bring forth a shower of dandruff on coming that leaves the scalp spotlessly clean and it's but a short time before the hair roots may take up its vegetable oils and are again able to produce the soft, fluffy, glossy hair that Nature intended. Any good druggist has "Wildroot" and the chemists who make it guarantee perfect satisfaction or your money is refunded.

## 15 YEARS AGO TODAY.

(From Advocate, April 1, 1900.) Mr. Albert Goodrich of Granville entertained the members of the Beta fraternity with a "sugaring off" party. Mrs. George W. Spencer and daughter Miss Marie of Garrett, Ind., are guests of Dr. B. F. Spencer's home in North Fourth street. Mr. Edward Smith has been seriously ill for several days. William Hinkle, an apprentice in the machinery department of the B. and O., had one of his feet badly mangled by a heavy piece of iron falling on it.

## Fifty Years Ago Today.

April 1.

Sheridan's cavalry and Warren's corps attacked Five Forks. Warren's men crushed in Pickett's left flank. Sheridan advanced, and Pickett's line retreated several miles. Warren's corps lost 600 killed and wounded. The cavalry loss was slight. Grant ordered a general assault on Lee's trenches at Petersburg. President Lincoln dispatched the war news from the Petersburg front to Washington. General Steele's army arrived in front of Fort Blakely, Mobile, and began a siege.

## IMPROVED

CONDITIONS IN BERLIN LABOR MARKET NOTED BY GOVERNMENT.

Iron Foundries are Working Overtime and at Night to Fill Their Orders.

(Associated Press Correspondence) Berlin, March 15.—The latest Government summary of conditions in the labor market shows that further improvement was registered in January. In a total of 1,240,000 workmen organized in 35 branch associations the number of persons without employment was only 6.5 per cent, as compared with 7.2 per cent in December. The percentage of unemployed for January varies but little from previous years and is regarded as quite satisfactory for the mid-winter month.

Similar reports were sent in by the public employment bureaus. Near the end of last August these had 150,622 more applicants for work than they could satisfy, but on February 13, the number was only 57,397. On the other hand, there were on the latter date 21,983 applications of employers for help that could not be filled, as against 4,419 in August. Some of the details of the Government summary are interesting. It is mentioned that iron foundries are working overtime and at night on Government orders, and that steel and rolling mills are also in part working overtime. Some branches of the machinery trade, like locomotive steam engine and boiler shop, also establishments for building bridges and other iron construction and railway cars, were all very busy. Electrical manufacturers were also working hard on dynamos, motors, and other supplies for the army; and the big chemical companies were running some of their department to their full capacity. A higher tendency for wages was reported.

## HUERTA IS NOW AT GIBRALTAR

(Associated Press Telegram) London, April 1.—A Gibraltar dispatch to the Exchange Telegraph company says that General Victoriano Huerta, former provisional president of Mexico, has arrived at Algiers. The dispatch states also that the United States collier Vulcan which carries supplies for the relief of Jews in Palestine and also for United States warships in Turkish waters, has arrived at Gibraltar.

Advices last night from Madrid were to the effect that General Huerta sailed yesterday from Cadiz, ostensibly for Buenos Aires.

# GOLD DUST

—how it actually works for you

Gold Dust actually works. It gets into corners and crevices where fingers and washcloths can't reach. It permeates and dissolves dirt, grease and grime everywhere and it cleans and brightens everything.

Gold Dust does all this—does this actual work—because it is made for that purpose.

Millions of women all over the country use Gold Dust three times a day in washing dishes. They use it for scrubbing floors, washing windows, etc.

But they do not realize all the uses of Gold Dust. Gold Dust is the only washing and cleaning powder needed in any home.

Gold Dust cleans metal work, nickel, enameled ware, etc., without scratching or marring the surface—leaving it sanitarially clean, bright and new-looking.

The use of Gold Dust is an economy. There can be no waste when you use the exact small quantity required for each specific purpose. It is at once taken up by hot or cold water, forming the perfect cleansing solution.

The active principle of Gold Dust is a valuable antiseptic cleansing agent.

Use Gold Dust not only for washing dishes, but for washing bathtubs and bathroom fixtures, cleaning oil mops, cleaning and freshening linoleum and oilcloth, cleaning and brightening pots, pans and cooking utensils, giving luster to glassware—for every cleaning and brightening purpose.

Gold Dust is as inexpensive as it is indispensable.

## CASCARETS CURE HEADACHE, COLDS, CONSTIPATION

Get a 10-cent box.  
Take a Cascaret tonight to cleanse your Liver, Stomach and Bowels, and you will surely feel great by morning. You men and women who have headache, coated tongue, a bad cold, are bilious, nervous, upset, bothered with a sick, gassy, disordered stomach, or have backache and feel all worn out. Are you keeping your bowels clean with Cascarets—or merely forcing a passageway every few days with salts, cathartic pills or castor oil?

Cascarets immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter and poison from the bowels.

Remember, a Cascaret tonight will straighten you out by morning. A 10-cent box from your druggist means healthy bowel action; a clear head and cheerfulness for months. Don't forget the children.

## QUARREL

IS ON BETWEEN TWO WOMEN  
SUFFRAGIST ORGANIZATIONS  
ABOUT MEN

Mrs. Belmont Asks "Why Admit Them?" We Got Along for 60 Years Without Them.

(Associated Press Telegram)  
Washington, April 1.—Lively discussion was aroused among the officers and members of the National Woman Suffrage Association today by the action of the advisory council of the Congressional Union for Woman Suffrage, here yesterday in advising its members to withdraw from the national association, which has been regarded as the parent body.

The work of the new organization is to forward the constitutional amendment which would give the vote to women directly by act of congress. On the other hand, the National association supports the Shafroth-Palmer suffrage amendment, which makes state as well as federal action necessary.

The fact that the Congressional Union had voted to exclude men as delegates, chairmen of committees or officers, caused some comment. This step was advised by Mrs. O. H. P. Belmont, of New York, a member of the executive committee of the Congressional Union. Mrs. Belmont said:

"We have gone along very well for 60 years without the men, 'so why let them in?' Mrs. Rheta Childe Dorr, who opposed the admission of men to the Union, said that they would use the organization for political purposes.

## EASTER AT THE FIRST PRESBYTERIAN.

Lovers of choral Easter music who attend the First Presbyterian church next Sunday evening will more than have their expectations realized. For some weeks the large chorus choir under the direction of Mrs. Chandler Tucker has been studying "The Glory of the Resurrection" an Easter cantata by that well-known composer, Charles Gilbert Spross. This is one of the largest, if not the largest chorus choirs in the city, composed of between forty and fifty voices. The music rendered by this chorus of well-trained singers on special occasions has always attracted large audiences. Those who have heard them in the past will not miss the treat in store for next Sunday evening. The service begins at 7:15 and the public will be heartily welcomed.

Bargains in the Wants tonight.

## GERMAN GOVERNOR OF BELGIUM ORDERS SPECIAL COURTS

(Associated Press Telegram)  
Paris, April 1.—The German governor general of Belgium has created special tribunals in each province whose duty it will be to enforce the old French law passed in the fourth year of the republic and which holds each community responsible for damage done during public disturbances, according to a Geneva dispatch to the Matin.

The Matin's correspondent says no appeal can be taken from the decisions of these tribunals.

Shenandoah.

Hazleton, Pa., April 1.—Mine workers throughout the anthracite coal field observed this as "eight-hour day," in commemoration of the granting of the eight hour concession in the central competitive bituminous district April 1, 1898, but not yet asked for nor effective in the hard coal belt. Proclamations issued by the national and district officers of the United Mine Workers of America several weeks ago requested all of the men with the exception of the engineers, firemen and pump runners to remain idle and to hold mass meetings, as has been the custom since 1902, when the last big anthracite strike occurred.

John P. White, national president of the United Mine Workers, was expected to speak at a celebration at Shenandoah. He is to make a tour of the hard coal region, and will attend a meeting of the tri-district executive boards at Wilkesbarre Tuesday, April 6, when a date is to be set for the holding of a convention some time in the fall at which the new scale of the miners will be framed for submission to the operators.

The agreement entered into in 1912 as a renewal of the 1902 contract put into force by the anthracite commission on the termination of a big strike, will expire a year from today.

It is stated that the object of President White's visit is to get in touch with the sentiment of the men on their probable 1916 demands.

**MINERS LOSE ONE POINT.**

Hazleton, Pa., April 1.—The G. B. Markle company, operating the Jeddo collieries near here, is sustained today by former Judge Gray of Wilmington, Del., umpire of the anthracite conciliation board, in its contention that pay for brattice work is included in the wage scale. This is against the contention of the men that they be given extra allowance. The grievance was started by the company reversing the usual procedure.

### All Made Clear.

A woman missionary in China was taking tea with a mandarin's eight wives. The Chinese ladies examined her clothing, her hair, her teeth, and so on, but her feet especially amazed them.

"Why," cried one, "You can walk and run as well as a man."

"Yes, to be sure," said the missionary.

"Can you ride a horse and swim, too?"

"Yes."

"Then you must be as strong as a man!"

"I am."

"And you wouldn't let a man beat you—not even if he was your husband—would you?"

"Indeed, I wouldn't," the missionary said.

The mandarin's eight wives looked at one another, nodding their heads.

Then the oldest said, softly:

"Now I understand why the foreign devil never has more than one wife. He's afraid."—Southern Women's Magazine.

### Another Neutral Zones.

"There goes another poor devil launched upon the sea of matrimony."

"Yes; and he looks as if he expected to strike a mine any minute."

## SPY BLAMES A WOMAN WHO IS UNDER ARREST

(Associated Press Telegram)  
Paris, April 1.—Marie Louise Welsh, said to have been associated with naval ensign Ullmo, who was sentenced to life imprisonment in 1907, for selling French naval plans, to a foreign government, has been arrested on a charge of espionage.

Charles B. Ullmo, an ensign in the French navy, was found guilty in 1908 of attempting to sell naval secrets to Germany and was sentenced to life imprisonment in a fortress. Later in the same year he was removed to Devil's Island. Ullmo made a partial confession and asked for clemency on the ground that he was a victim of the opium habit and that he had fallen under the power of an unscrupulous woman for whom he had squandered his fortune and ruined his life.

## DECISION

IS REACHED TO APPEAL THE  
CRIMINAL SUIT AGAINST  
CASH REGISTER CO.

To the Supreme Court of the United States, Attorney General Gregory Announces.

(Associated Press Telegram)

Washington, April 1.—Department of justice officials were getting ready today to take the government's anti-trust suit against officials of the National Cash Register company to the supreme court of the United States on a writ of certiorari. Should the writ be granted, it would bring before the supreme court for review the decision of the federal circuit court of Ohio which reversed conviction of the defendants and ordered a new trial.

Announcement that an appeal would be taken was made by Attorney General Gregory following conferences between officials of the department and United States District Attorney McPherson of Cincinnati, who had charge of the case. The appeal will be taken as soon as the writ and the government's brief can be prepared.

**Continuous Service.**

A continuous service will be conducted Friday at the First Presbyterian church from nine o'clock a. m. till two o'clock p. m. From two to three o'clock a communion service will be conducted by the pastors of the First and Second churches to which all ministers, churches and Christian peoples of the city are cordially invited.

Automobile and Motorcycle  
Tires, Tubes and Accessories

An ever growing demand for Firestones in this locality and every locality where quality is appreciated has made it necessary to establish headquarters here.

Last year the Firestone Factory—already the largest exclusive tire plant in the world—was still further enlarged. Output increased 78% to meet the demand. And the factory and the demand are still growing.

# CONSPIRACY

INVOLVING OTHERS WITH MISS  
RAE TANZER IS SUSPECTED  
BY THE AUTHORITIES

Grand Jury Investigating—Defendant  
Not to be a Witness—No  
Immunity Granted Her.

(ASSOCIATED PRESS TELEGRAM)  
New York, April 1.—Evidence  
against Miss Rae Tanzer, accused of  
using the mails to defraud James W.  
Osborne against whom she instituted  
a \$50,000 breach of promise suit,  
was ready for submission to the fed-  
eral grand jury today. Part of this  
evidence was intended, it was stated,  
to show that a conspiracy in which  
others were involved lay behind the  
young woman's suit. Indictments,  
if any, were found, were not expected  
for several days.  
United States District Attorney  
Marshall announced that Miss Tan-  
zer would not be called as a witness  
before the grand jury and that this  
meant immunity would not be granted  
to her. He said also that several  
other persons suspected of conspi-  
racy to defraud Mr. Osborne would not  
be permitted to obtain immunity by  
testifying.  
Miss Tanzer's admission that Jas.  
W. Osborne was not the missing "Ol-  
iver Osborne," who wooed her, was  
included in the grand jury evidence.  
Mr. Marshall has indicated that  
there were discrepancies in her  
story.

## RECENT CHANGES IN B. & O. SERVICE

ceased.  
Connellsville division—S. J. Al-  
bright has been appointed agent at  
Sand Patch, Pa., succeeding J. E.  
Albright, deceased.  
T. G. Leonberger has been appoint-  
ed agent at Opekiska, W. Va., suc-  
ceeding J. A. Hummel.  
Indiana division—H. W. Gaither  
has been appointed agent at Bloch-

## IRON TRADE REVIEW

Cleveland, Ohio, April 1.—The  
Iron Trade Review today says:  
Following the recent selling of Buf-  
falo iron, amounting to 300,000  
tons, most of which went at about  
\$12, furnace, the pig iron market  
has quieted down and with the ex-  
ception of negotiations of from 20-  
00 to 30,000 tons by the leading  
cast iron pipe interest no tonnages of  
importance are pending.  
Orders for war materials placed or  
pending are very large, especially  
for sharpnel, and many orders for  
lathes for turning out sharpnel are  
being placed in this country by for-  
eign and domestic companies.

## IF BACKACHY OR KIDNEYS BOTHER

Eat less meat and take a glass of  
Salts to flush out kidneys—  
Drink plenty water.

Uric acid in meat excites the kid-  
neys, they become overworked; get  
sluggish, ache, and feel like lumps  
of lead. The urine becomes cloudy;  
the bladder is irritated, and you  
may be obliged to seek relief two or  
three times during the night. When  
the kidneys clog you must help  
them flush out the body's urinous  
waste or you'll be a real sick person  
shortly. At first you feel a dull mis-  
ery in the kidney region, you suf-  
fer from backache, sick headache,  
dizziness, stomach gets sour, tongue  
coated and you feel rheumatic  
twinges when the weather is bad.  
Eat less meat, drink lots of wa-  
ter; also get from any pharmacist  
four ounces of Jad Salts; take a  
tablespoonful in a glass of water be-  
fore breakfast for a few days and  
your kidneys will then act fine. This  
famous salts is made from the acid  
of grapes and lemon juice, combined  
with lithia, and has been used for  
generations to clean clogged kidneys  
and stimulate them to normal activ-  
ity, also to neutralize the acids in  
urine, so it no longer is a source of  
irritation, thus ending bladder  
weakness.  
Jad Salts is inexpensive, cannot  
injure; makes a delightful efferves-  
cent lithia-water drink which every-  
one should take now and then to  
keep the kidneys clean and active.  
Druggists here say they sell lots of  
Jad Salts to folks who believe in  
overcoming kidney trouble while it  
is only trouble.

Rheumatism Yields Quickly to  
Sloan's.  
You can't prevent an attack of  
rheumatism from coming on but you  
can stop it almost immediately.  
Sloan's Liniment gently applied to  
the sore point of muscle penetrates in  
a few minutes to the inflamed  
spot that causes the pain. It soothes  
the hot tender, swollen feeling, and  
in a very short time brings a relief  
that is almost unbelievable until  
you experience it. Get a bottle of  
Sloan's Liniment for 25c. of any  
Druggist and have it in the house—  
against Colds, Sore and Swollen  
Joints, Lumbago, Sciatica and like  
ailments. Your money back if not  
satisfied, but it does give almost in-  
stant relief.

# COALING

OF PRINZ EITEL CONTINUED  
LAST NIGHT AS SHE LAY  
AT HER PIER.

United States Soldiers Guard Her  
Constantly by Land and Naval  
Launch by Sea.

(ASSOCIATED PRESS TELEGRAM)  
Newport News, Va., April 1.—Ac-  
tivity continued today on board and  
about the German converted crui-  
ser Prinz Eitel Friedrich, whose three  
weeks' stay at the shipyard dock  
here is expected to be terminated  
within a very brief time, either by  
a dash to sea through the squadron  
of Anglo-French warships laying in  
wait for her outside by the Virginia  
Capes, or by internment under the  
protection of the United States gov-  
ernment until the close of the war.  
Coaling of the vessel under super-  
vision of officers of the United States  
navy, which began late yesterday  
and continued throughout the night,  
had not been completed at 8 o'clock  
this morning. All night a part of  
the crew of the cruiser had worked  
at filling the ship's bunkers and a  
fresh lot of men took up the labor at  
sunrise.  
That Commander Thierichens was  
not preparing to move his ship im-  
mediately at least, was apparent ear-  
ly today because the vessel was  
known to have only reserve boilers  
in action.  
Soldiers from Fortress Monroe  
who had guarded the Eitel's pier all  
night, were relieved by others this  
morning and in the James river a  
navy launch, manned by sailors  
from the American battleship Ala-  
bama patrolled the waters adjacent  
to the German sea raider. No one  
without official authority was per-  
mitted to enter the shipyard.  
Men, who are rogues individually,  
are in the mass very honorable peo-  
ple.—Montesquieu.

# Theatres

Howe's Travel Pictures.  
Each recurring visit of Lyman H.  
Howe's Travel Festival which comes  
to the Auditorium on Wednesday,  
April 7th is now regarded by a mil-  
litude of "Howe travelers" in over  
600 cities and towns, as a fixed event  
such as New Year's, the Fourth of  
July, Thanksgiving Day or any oth-  
er festive occasion. And indeed his  
is a "Travel Festival in the truest  
sense of the term. A great measure  
of its charm comes from the excel-  
lent judgment shown in the selection  
of the subject matter as well as the  
absolutely perfect photography of  
each film. Then, too, each scene is  
presented with a degree of realism  
attained by vocal, mechanical and  
musical effects that defies analysis.  
In color and composition Howe's  
films possess all the realism of the  
"old masters."  
Among the big new features, a  
"thrill among thrills" is promised on  
a new ride on a runaway train. An-  
other spectacular adventure is that  
which takes spectators down into the  
crater of Vesuvius. The growth of  
plants and flowers; new bird studies,  
the electrolysis of metals; a railroad  
ride through Greece; and a trip  
through historic and ever enchanting  
Venice, are only a few of the remark-  
able subjects included in the new  
program. 25c, 35c and 50c.

James Byrne suffered a light stroke  
Monday.  
Chimneys burned out Monday at the  
homes of Frank Quick and Homer  
Hawkins. There was no serious dam-  
age at Mr. Quick's, but at Mr. Haw-  
kins the roof was covered with  
shingles and took fire. Help was cal-  
led and the fire was extinguished, but  
part of the roof was burned off.
